FOREWORD

Have you ever tediously searched through old newspapers and wished for an alphabetical index to make it easier to find family names? How wouuld you like one resource aid which gathered from a daily Juneau newspaper reporting from all over Alaska and parts of the Yukon? Look no further.

Most of the records abstracted in this book include marriages, divorces, deaths, births, adoptions, christenings, and anniversaries. For reference purposes, each entry contains a citation which identifies the publication and issue date, page and column, what the occasion was and the names of individuals involved. When known, the location and date of the event was recorded. Researchers interested in access to the microfilm to make copies of particular news articles or for further research may contact the Alaska State Library at asl@alaska.gov or 907-465-2920 in Juneau.

ACKNOWLEDGMENTS

This is a companion book to my first publication of vital records from the Douglas Island Weekly Newspaper from 1898-1922. I began the research on this Alaska Daily Empire book in January 1992. The State Library personnel are so wonderful in allowing me to take the microfilm out to the LDS Family History Center for weeks at a time. The Family History Center has allowed me to read the microfilm on their equipment at any given time of the day. My wonderful husband, Norm, has endured many hours of my time devoted to seeing this project to the end. He was even gracious enough to be my proofreader. My grandchildren couldn't understand why I wasn't able to put the “book” up everytime they wanted to play games. They will be happy to know the book is done now and I plan to take a breather from the research and get caught up on other pressing projects, including playing games with the grandchildren! Thank you all for your help and patience. I couldn't have done it without your encouragement and enthusiasm. I hope you find the book helpful in your research.
