IS THIS PROCUREMENT FEDERALLY/STATE FUNDED? YES ☐ NO ☒

Give complete, accurate, detailed explanation of your request. Please be specific.

MODIFICATION REQUEST EXPLANATION:

Engineering requests to purchase Checkmate inline check valves in advance of an installation bid to install the check valves on 8 storm drain outfalls that backed up water into Meander Way and Marion Drive roadways and neighborhoods along the Mendenhall River during the August '23 Glacial Outburst flooding event. The purchase is to expedite the supply and delivery of the check valves in hopes of installing during the drier summer weather and hopefully ahead of the next Glacial Outburst flooding event. Production and delivery of the check valves would be occurring while the contractor bidding process is occurring.

The Checkmate inline check valves, (https://www.redvalve.com/tideflex/tideflex-products/checkmate-inline-check-valve) manufactured by Red Valve/ Tideflex Corp. are the only product available to fit the needs of installing a check valve directly into the end of the culvert pipe without any pipe modifications. Antec Corporation is the sole supplier/distributor for the Checkmate check valves for Alaska (letter attached).

EXPLANATION OF REASONS FOR MODIFICATION REQUEST

Sole Source: *The purchase of a commodity or service from the only known capable supplier.*	***Emergency Bid Circulation:*** *A request to reduce the required bid advertisement period.*
