Proposed Manager's Report

Resolution 1712:

In November 1985, Capital Transit entered into an agreement with the University of Alaska Southeast to provide a passenger van for the purpose of operating a van pool from the University Housing. The University agreed to operate the van for a period of at least five years. The van continues in operation at University Housing. The purchase of the van was financed with Federal Transit Administration Section 3 funds. The title to the van is with the city and borough. There is no remaining obligation to the Federal Transit Administration. It is recommended that title to the vehicle be transferred to the University of Alaska Southeast.

I recommend that this resolution be adopted.
