**Resolution 1742:**

This project will develop a historic and cultural preservation plan. The plan would document and protect Juneau's ethnic heritage; encourage public awareness of the community's past; enhance the attractiveness of the community to visitors; and identify and resolve conflicts between the preservation of heritage resources and alternative land uses.

The Historic Resources Advisory Committee would invite public participation as the project is developed. A draft will be presented to the Planning Commission and then the Assembly as an addition to the Comprehensive Plan.

The plan will build upon prior city and borough efforts such as historic building surveys, design standards for the Downtown Historic District, and the preservation incentive ordinance. The historic preservation plan will also set goals and direction for future preservation activities.

This is a federally funded matching grant (60% federal, 40% CBJ). The municipal match will be in-kind services from the Community Development Department staff. The federal monies will be used for the balance of Community Development Department staff time.
