			NEEDS STAMPED PLANS 9/9. New permit to replace work previously permitted under BLD20250730 (utility shed over existing underground water service vault at Churchill MHP water connection). New drawings supersede the prior set, which was based on incorrect measurements of the existing structure. Scope: extend existing concrete vault walls 4'-0" with new 8" reinforced concrete wall extension (epoxy-doweled cold joint, top of new wall at finish grade), and construct an unheated, non-habitable wood-framed access shed (approx. 9'-6" x 6'-6") on the new walls with PT floor framing, 36"x30" hinged floor access hatch over the existing ladder, and single-slope 3:12 roof. No change to vault footprint. No plumbing or electrical work; existing water piping, meter and valves to remain and be protected.
