

TRAILS WORKING GROUP

“The Trails Working Group will systematically evaluate all trails in Juneau to develop a common vision for agency management to guide commercial use of trails, reduce conflicts between commercial and non-commercial users, and minimize natural resource degradation to provide and preserve quality experiences for all trail users.”

Mission Statement adopted 11/16/99

PROBLEM STATEMENT:

Increasing commercial use on trails is diminishing the experience of non-commercial users, with no area wide review of cumulative impacts, and commercial operators have no area wide guidance for commercial activities on trails.

ACTION STEPS:

1. Review and update recommendations for agency management of commercial use of trails and carrying capacity

Agenda
Trails Working Group
Wednesday, December 17, 2003
12:00pm – 2:00pm
Room 223 in City Hall
