Re: PAX Mixer for City & Borough of Juneau

Ladies and Gentlemen:

The PAX Water Technologies Division of UGSI Chemical Feed, Inc. of Vineland, New Jersey (PAX) proposes to supply PAX PWM500 Mixers to the City of Juneau for its Auke, Crow Hill, East Valley, and West Juneau Water Storage Tanks. PAX designs, manufactures, and supplies a range of potable water mixers that generate a unique, high-efficiency, toroidal flow. PAX Water Technologies mixers and the unique flow pattern generated by the mixers are covered by one or more patents and patent applications, including U.S. Patent No. 7,862,302. PAX is the exclusive licensee of the referenced patent for use in water applications and the sole manufacturer of water mixers designed to generate the high-efficiency toroidal flow covered by the referenced patent.

If you have further questions, please contact our Regional Sales Manager, Ethan Brooke, at (917) 501-7358.

PAX Water Technologies,
A Division of UGSI Chemical Feed, Inc.
