RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

---

**Situational Report:**

Juneau is still at 2 confirmed COVID 19 Cases. DPH stated today that there are no community transmission cases in Alaska. All confirmed cases have been traced back to an original source.

**EOC Actions:**

Today, Section Chiefs of the EOC continued to make progress on operational tactics. The CBJ section chiefs met, along with the DPH IC, to discuss issues specifically related to the impact of the Governor's mandates on current operations. We are working to resolve outstanding issues related to the term "gathering" and its impact on the EOC, Capital Transit, Homeless shelters, and public meetings.

**Operations:**

Airport Screening Taskforce: The ASTF reported that 99 out of 131 individuals coming off flights on Monday complied with voluntary screening. They will begin handing out the State of Alaska Mandatory Quarantine form provided by the Department of Health and Social Services as part of the Governor's Health Mandate 010. We are looking at replacing the CCFR staff resources with other staff resources.

Mobile Screening is up and operational. The call in line is operational from noon – 6pm, with the drive through sampling area being operational from 3 – 7. They took 10 samples yesterday.

We are working on extending operations to the JACC warming shelter. Still trying to get confirmation on how the Governor's orders impact that operation before committing to a more robust staffing scheme.

Volunteer/Community Coordination Taskforce is beginning to receive form submissions through the COVID 19 web page. Specific community offers for assistance are being channeled through that taskforce.
