 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

**Situational Update – Incident Level 2 - Operational Period 15 (6/11/2020 – 6/25/2020).**

Disease Transmission/Contact Tracing:

There were no new cases in Juneau today and no new nonresident cases associated with Juneau. Statewide, there was an increase of 12 positive cases for Alaska residents including 2 new nonresident cases. Cumulatively 77 nonresidents have tested positive statewide. Contact tracing capability remains unconstrained.

Testing:

The state lab appears to have resolved its supply issues. Our tests are still being sent to Fairbanks which is causing additional delay. We continue to explore ways to reduce the turnaround time.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability.

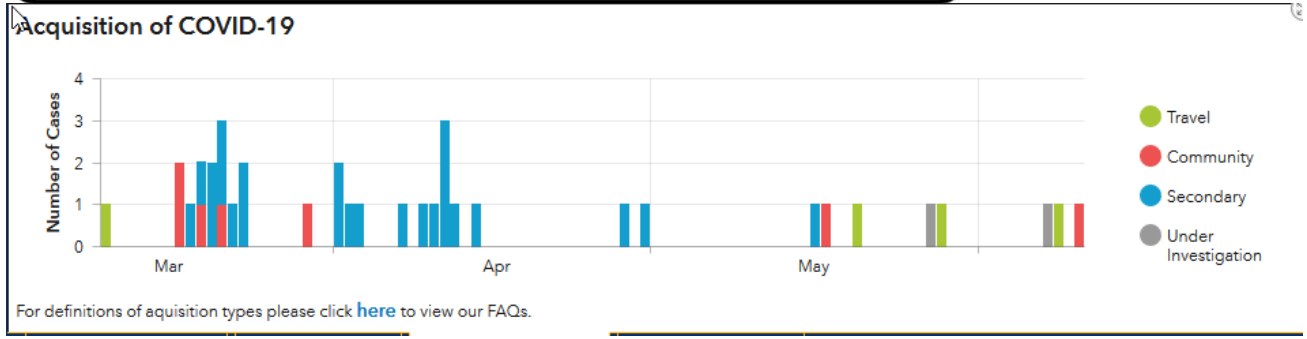

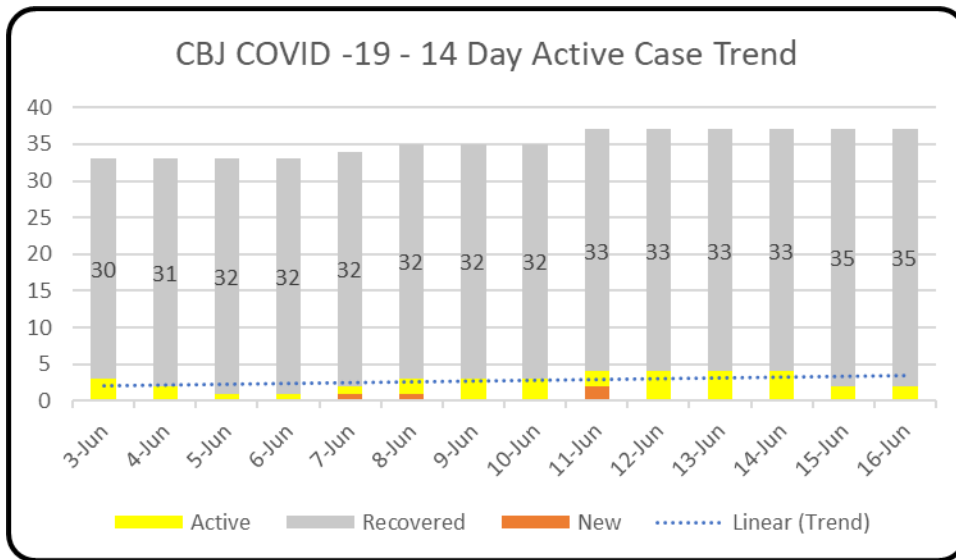

Issues of Note:

We continue to work on local testing options and refining how data is reported out through the state particularly as it relates to nonresident positive tests.

NCL announced they were suspending sailings through August 2020 but are still hoping for a short season in September and October.

Numbers changed from yesterday are highlighted.
