 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 16 (6/25/2020 – 7/9/2020).

Disease Transmission/Contact Tracing:

There is one new case reported in Juneau today and 46 new cases statewide. There are 14 new non-resident cases statewide, none in Juneau.

There continues to be a significant amount of case climb in other parts of the state – particularly Anchorage, Fairbanks and Kenai. Contact tracing capability remains unconstrained locally; however, contact tracing capability is strained statewide.

Testing:

Staff and supplies are unconstrained. There are episodic shortages that are appearing around the country related to reagent. We continue to monitor that as an issue. Test turnaround time is currently 3-7 days.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability.

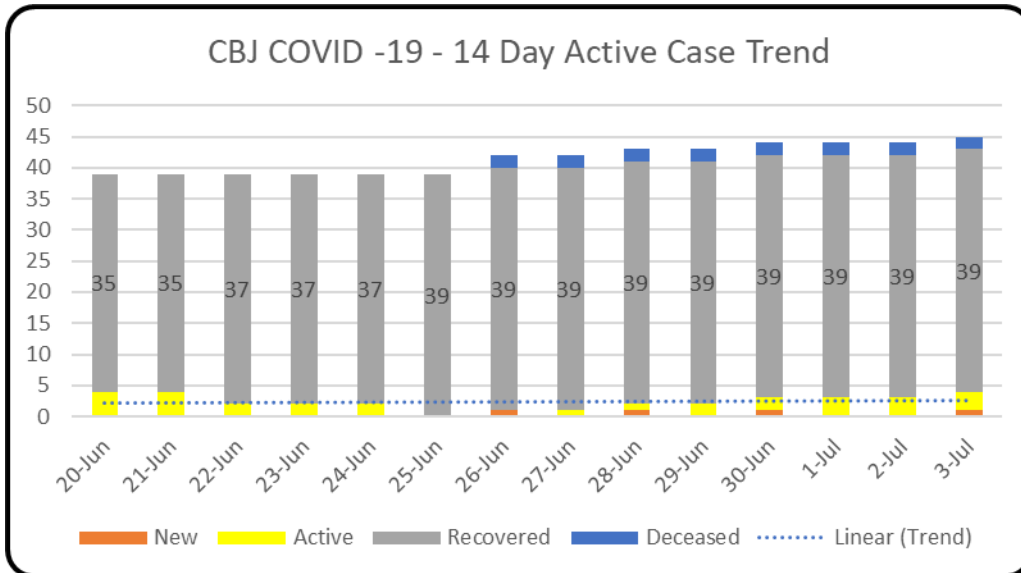

Issues of Note:

We have reached tentative agreement with the State regarding the airport testing contract and anticipate finalizing that on 7/6. We will be under contract until 8/31 with an optional 2-month extension at the discretion of the State.

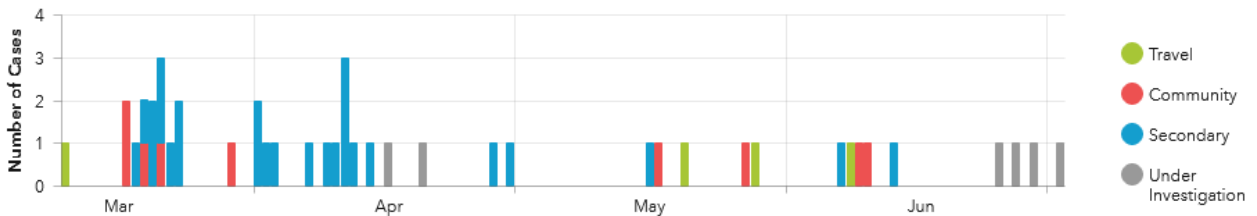

Numbers changed from yesterday are highlighted. The DPH PUI number is not updated today due to the holiday.

Category	Juneau		Statewide
Total Confirmed resident cases	45		1,063 (46+)
Recovered/Active resident	39	4	539 (4+)
Cumulative Tests & % of population tested	4,534	14%	120,208 (4,299+)

Fatalities	2	15
------------	---	----

Acquisition of COVID-19

Positive cases are back dated by the Division of Public Health during their contact tracing phase to the day of onset of COVID-19 symptoms. CBJ & DHSS Dashboards which can be found at: www.Juneau.org/COVID-19

On Fridays we typically provide a financial update, this will resume next week.
