 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

**Situational Update – Incident Level 2 - Operational Period 17 (7/9/2020 – 7/23/2020).**

Disease Transmission/Contact Tracing:

There is one new resident case reported in Juneau today and 63 new cases statewide. There are additionally 15 new statewide non-resident cases, none in Juneau. One of the non-resident cases is a re-classification from a case originally reported on 7/6.

Contact tracing continues to be strained statewide. More information on contact tracing here:

<https://www.uaa.alaska.edu/academics/college-of-health/departments/ACRHHW/>

Testing:

Staff and collection supplies are unconstrained. Recent test turnaround times have been between 3 and 7 days.

Hospital Response:

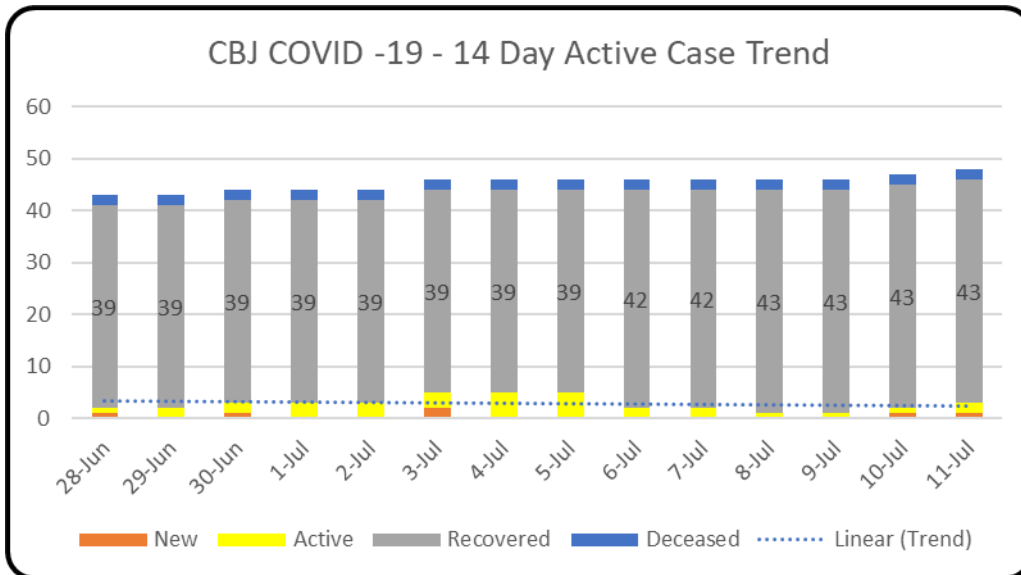

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

There have been some concerns raised recently about releasing information about the locations, employers, or circumstances of specific recent cases. With a few exceptions, it is generally not our practice to release detailed information about specific cases unless the public health benefit outweighs the privacy concerns.

Numbers changed from yesterday are highlighted. The DPH PUI number is not updated over the weekend.

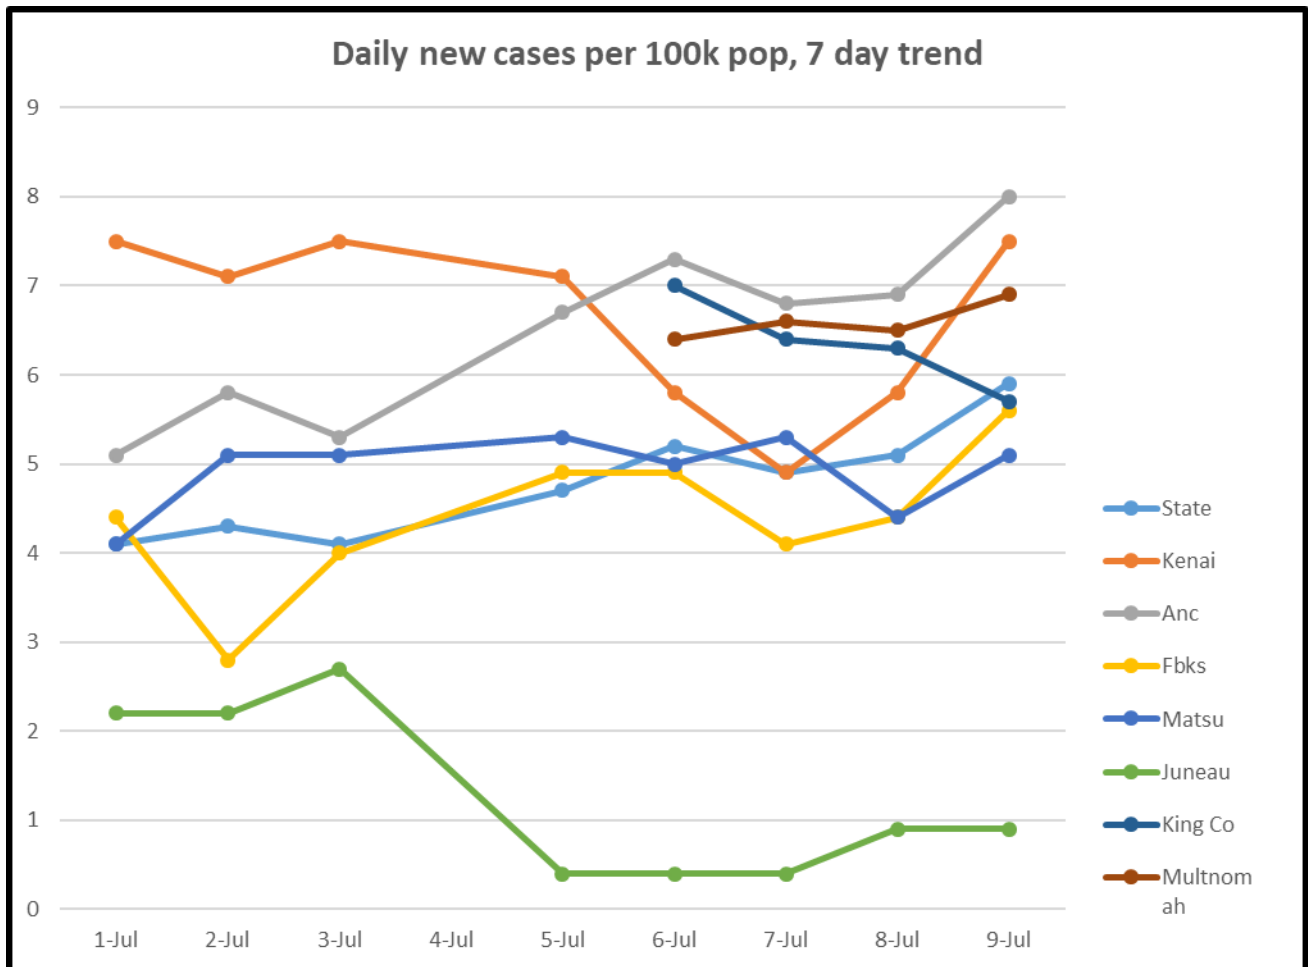

Category	Juneau		Statewide
Total Confirmed resident cases	48		1,385 (63+)
Recovered/Active resident	43	3	598 (10+)
Cumulative Tests & % of population tested	5,339	17%	143,376 (1,445+)
Average # of tests per day over the last 14 days	100.71	Down	
Positive tests over the last 14 days (# and % of positive)	5	0.35%	
DPH PUIs	57	Up	
Nonresident (Total positive/recovered or no longer in Juneau)	6	5	273 (14+)
Hospitalized COVID + (current)	0		31 (1+)
Ventilated Patients	0		
Fatalities	2		17

**Acquisition of COVID-19**

Positive cases are back dated by the Division of Public Health during their contact tracing phase to the day of onset of COVID-19 symptoms. CBJ & DHSS Dashboards which can be found at: [www.Juneau.org/COVID-19](http://www.Juneau.org/COVID-19)

This chart tracks the number of new cases in the past 7 days, controlled for population. Other than Alaskan boroughs, King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency.

The source data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and is generally updated every other day. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website.
