RE:         Situational Update –Level 3 High- Operational Period 28 (12/31/2020 – 1/28/2021)

Situation Assessment:  Our 14 day and 7 day case rates have dropped to the High alert level. The disease is moving across all disease acquisition types: secondary infection, travel and community. Travel related cases remain elevated. Residents must take appropriate cautions, including limiting social bubbles to immediate family members. The public should strictly adhere to all health orders related to travel.

Issues of Note:
Registration for vaccination Phase 1a, Tier 3 is underway. Vaccines will begin next week. Tier 3 includes workers in health care settings who are essential to the health care infrastructure and who regularly provide health care services that cannot be postponed or provided remotely. Please see this press release for more detail on what is currently know about vaccine allocation.

Asymptomatic testing is under way at the Fire Training Center. Testing will be available through Jan. 10th.

Daily Numbers Report:
We are reporting 3 new cases today.

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard due to lags in data entry on the state level.

Disease Transmission/Contact Tracing:
We are reporting 3 new resident and no new nonresident cases today. 1 case is travel, the remaining 2 are under investigation.
The State of Alaska is reporting 374 new cases today bringing the statewide cumulative case count to 46,986.

**Testing:** 12/30/20: 193 test results were received from the Fulgent Lab with collection dates between 12/25/2020 – 12/28/2020: 1 returned at 5 days, 109 at 3 days, and 83 at 2 days.

---

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute ([https://globalepidemics.org/key-metrics-for-covid-suppression/](https://globalepidemics.org/key-metrics-for-covid-suppression/)) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website.
