 RE: **Situational Update –Level 1 Minimal-** Operational Period 30 (2/25/2021 – 3/25/21)

Overall Community Risk	Disease Situation	Hospital Capacity	Public Health Capacity
<b>Level 1 - Minimal</b>	Overall cases have dropped. Some community spread is present.	The hospital case load is stable.	Contact tracing is stable.

The Complete CBJ COVID-19 Dashboard can be found [here](#) or by going to [Juneau.org/ COVID-19](http://Juneau.org/COVID-19)

**Situation Assessment:** Our 14 day and 7 day case rate indicators are at the moderate alert level - primarily due to secondary transmission. The community continues to see COVID transmit via community spread, secondary infection, and travel. The more aggressive variants of COVID-19 have been identified in Alaska. We caution the public to strictly adhere to all travel related rules and to continue strict adherence to masking and social distancing when outside your immediate home.

**Issues of Note:**

30.6% of the Juneau population age 16 and above have been vaccinated with 20.8% of the population having received their 2<sup>nd</sup> dose. The State is reporting that 78.9% of the population in Juneau age 65+ have received at least the first dose of vaccine.

POD 2b is underway and will conclude tomorrow. This is a second dose clinic for the clinic which occurred on February 11<sup>th</sup> and 12<sup>th</sup>.

POD 3a (March 12&13) is fully registered and the waiting list is full. POD 3b (second dose clinic) is scheduled for April 2 and 3.

Planning is underway for POD 4a&b. We hope to make an announcement about dates and registration tomorrow.

**Daily Numbers Report:**

We are reporting no new cases today.

COVID-19 In Juneau				
	Active	Recovered	Deceased	Cumulative
Resident	18	1,135	5	1,158
Nonresident	0	142	0	142
<b>Total</b>	<b>18</b>	<b>1,277</b>	<b>5</b>	<b>1,300</b>

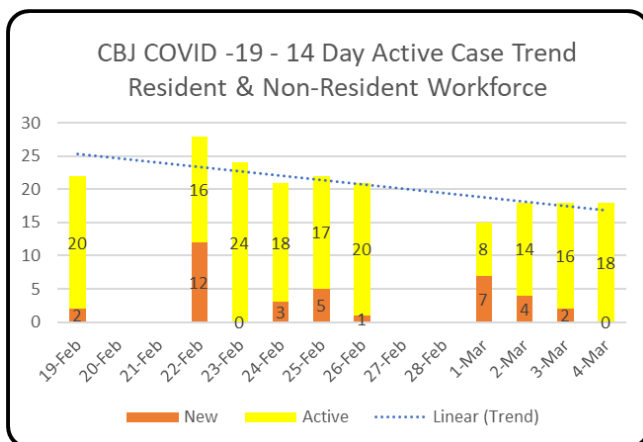

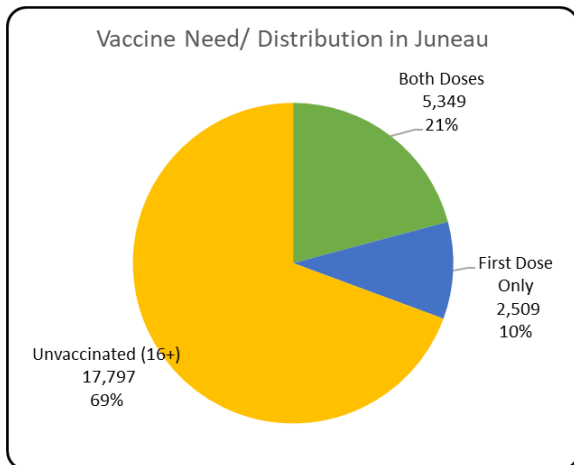

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard.

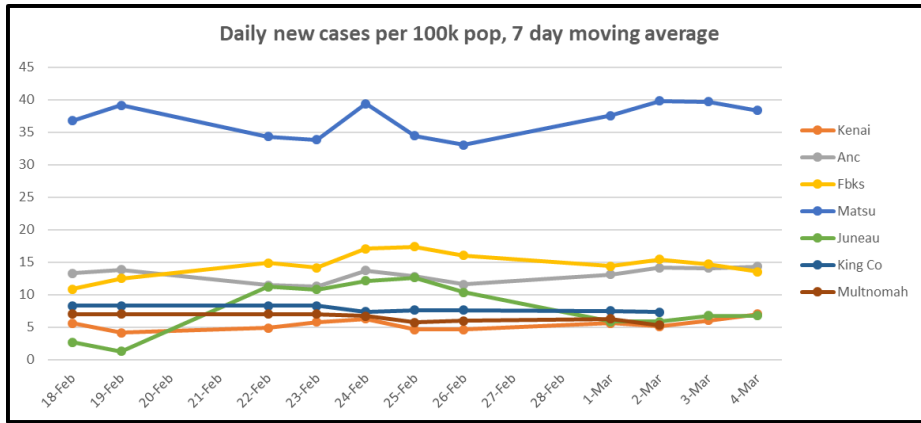

Disease Transmission/Contact Tracing:

We are reporting no new resident cases and no new nonresident cases today. The small business cluster remains at 10 positive with 4 recovered.

The State is reporting 189 new cases today bringing the statewide cumulative total to 59,030 cases.

Testing: 3/02/21: 13 test results were received from the Fulgent Lab with collection dates between 02/26/2021 – 03/01/2021 – 2 tests returned in 1 day, 7 tests returned in 2 days, 3 tests returned in 3 days and 1 test returned in 4 days.

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website
