DATE: March 9, 2021
 TO: CBJ Assembly
 FROM: Mila Cosgrove, Incident Commander
 RE: **Situational Update –Level 1 Minimal-** Operational Period 30 (2/25/2021 – 3/25/21)

Overall Community Risk	Disease Situation	Hospital Capacity	Public Health Capacity
Level 1 - Minimal	Overall cases have dropped. Some community spread is present.	The hospital case load is stable.	Contact tracing is stable.

The Complete CBJ COVID-19 Dashboard can be found [here](#) or by going to [Juneau.org/ COVID-19](http://Juneau.org/COVID-19)

Situation Assessment: Our 14 day and 7 day case rate indicators are at the moderate alert level - primarily due to secondary transmission. The community continues to see COVID transmit via community spread, secondary infection, and travel. The more aggressive variants of COVID-19 have been identified in Alaska. We caution the public to strictly adhere to all travel related rules and to continue strict adherence to masking and social distancing when outside your immediate home.

Issues of Note:

Registration for POD 4a continued today. 2100 doses were available for this clinic. At this time approximately 10 appointments remain. We will advertise for a waiting list tomorrow. The 4a clinic will run from Monday, March 15th through Saturday, March 20th. The clinic will be held at Centennial Hall. The second dose clinic (4b) will be scheduled for April 5 –11. This clinic is made possible through a cooperative effort with SEARHC.

The Veteran's Administration is offering a clinic for all veterans in Juneau on Saturday, March 13th. The clinic will use the J&J vaccine.

The Governor is expected to address vaccine tier eligibility in his presser this evening.

Daily Numbers Report:

We are reporting 2 new cases today.

COVID-19 In Juneau				
	Active	Recovered	Deceased	Cumulative
Resident	17	1,144	5	1,166
Nonresident	1	142	0	143
Total	18	1,286	5	1,309

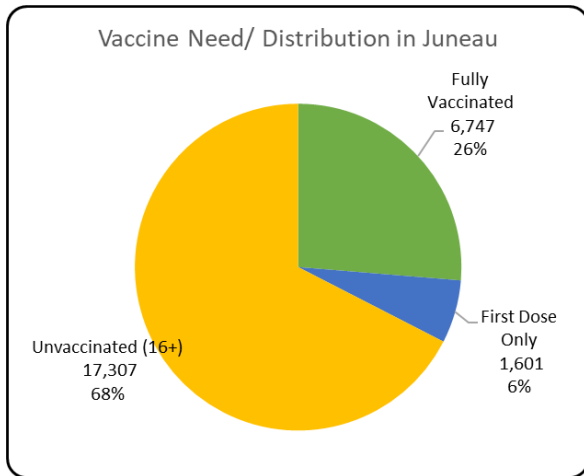

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard.

Disease Transmission/Contact Tracing:

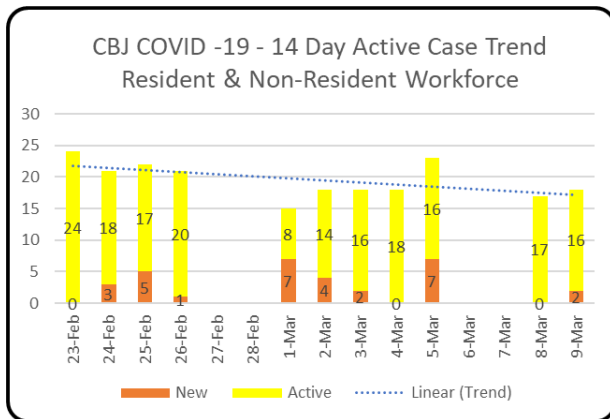

We are reporting 2 new resident cases and no new nonresident case today. 1 case is community spread and the other is under investigation. The small business cluster remains at 11 total positives with 8 recovered.

The State is reporting 91 new cases today bringing the statewide cumulative total to 59,765 cases.

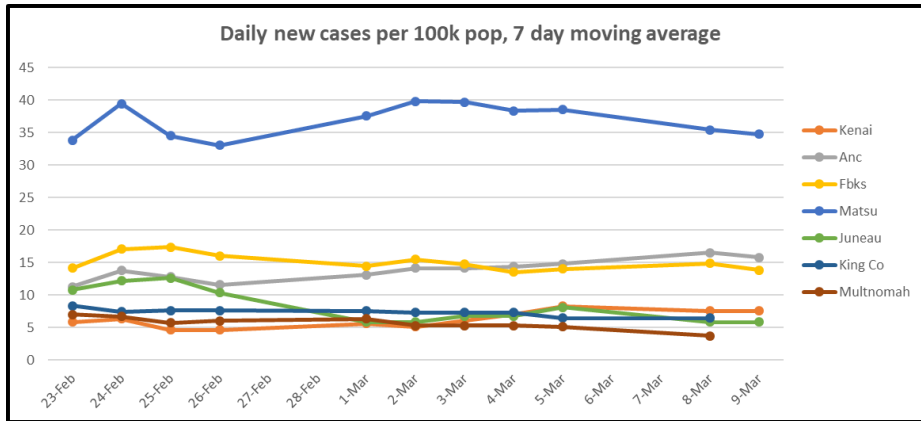

Testing: 3/08/21: 5 test results were received from the Fulgent Lab with a collection date of 03/06/2021 – tests were returned in 2 days.

32.5% of the Juneau population age 16 and above have been vaccinated with 26.3% of the population having received their 2nd dose. The State is reporting that 79.6% of the population in Juneau age 65+ have received at least the first dose of vaccine.

 Assembly EOC Update
 CBJ COVID-19 Response

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website
