 FROM: Mila Cosgrove, Incident Commander  
 RE: **Situational Update –Level 1 Minimal-** Operational Period 30 (2/25/2021 – 3/25/21)

Overall Community Risk	Disease Situation	Hospital Capacity	Public Health Capacity
<b>Level 1 - Minimal</b>	Overall cases have dropped. Some community spread is present. Availability of the COVID vaccine is increasing.	The hospital case load is stable.	Contact tracing is stable.

The Complete CBJ COVID-19 Dashboard can be found [here](#) or by going to [Juneau.org/ COVID-19](http://Juneau.org/COVID-19)

**Situation Assessment:** Our 14 day case rate indicator is at the moderate alert level and our 7 day case rate indicator is at the minimal alert level. The community continues to see COVID transmit via community spread, secondary infection, and travel. COVID vaccine distribution is on the rise, which should begin to offer the community some level of protection. The more aggressive variants of COVID-19 have been identified in Alaska. We continue to caution the public to strictly adhere to all travel related rules and to continue strict adherence to masking and social distancing when outside your immediate home.

**Issues of Note:**

Registration for POD 4a (3/15 – 3/20) is full. The waitlist is full. The second dose clinic (4b) will be scheduled for April 5 –11. This clinic is made possible through a cooperative effort with SEARHC.

POD 5a will be scheduled for Tuesday, March 23<sup>rd</sup>. 800 doses of Pfizer will be available. Registration for this clinic opens on Monday, March 15<sup>th</sup> at noon. Appointments can also be scheduled through the hotline. The second dose clinic (5b) will be on Tuesday, April 13<sup>th</sup>.

All COVID tests collected at the Fire Training Center are now being processed at BRH.

**Daily Numbers Report:** We are reporting no new cases today.

COVID-19 In Juneau				
	Active	Recovered	Deceased	Cumulative
Resident	15	1,148	5	1,168
Nonresident	0	143	0	143
<b>Total</b>	<b>15</b>	<b>1,291</b>	<b>5</b>	<b>1,311</b>

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard.

Disease Transmission/Contact Tracing:

We are reporting no new resident cases and no new nonresident case today.

The State is reporting 238 new cases today bringing the statewide cumulative total to 60,157 cases.

Testing: 3/10/21: 25 test results were received from the Fulgent Lab with a collection date of 03/08/2021 – All tests returned in 2 days. BRH processed 32 tests from the Fire Training Center.

34.4% of the Juneau population age 16 and above have been vaccinated with 27.4% of the population having received their 2<sup>nd</sup> dose. The State is reporting that 81.6% of the population in Juneau age 65+ have received at least the first dose of vaccine.

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website
