TO: CBJ Assembly

FROM: Mila Cosgrove, Incident Commander

RE: Situational Update –Level 1 Minimal- Operational Period 32 (04/22/21 – 05/20/21)

Situation Assessment: Our 14 day case rate is at the moderate alert level and our 7 day case rate is at the minimal alert level. The community continues to see COVID transmit via community spread, secondary infection, and travel. COVID vaccine distribution is on the rise which offers the community a level of protection. A variant of concern (UK/B1.1.7) has been identified in Juneau. Case rates statewide are high but appear to be evening out. We continue to caution the public to strictly adhere to all travel related rules and to continue strict adherence to masking and social distancing when outside your immediate home.

If case activity stays at Level 1, the community will move from Level 1a to Level 1b on May 12th.

Issues of Note:
The EOC held a full unified command meeting today:

BRH: The hospital reported that 87.9% of staff and medical staff providing services at the hospital are fully vaccinated. Bradley Grigg will take over the role of Operations Section Chief for the EOC with Rose Lawhorne fulfilling the role of Incident Commander. The overall number of tests being processed at BRH continues to increase with many private sector companies and the school district now processing tests locally.

JSD: The district is working to incorporate changing guidelines into school activities. Many student participating in activities and sports are now tested on a regular basis. Planning in underway for graduation ceremonies with JDHS and TMHS both planning in person outdoor ceremonies and Yakoose a smaller indoor in person ceremony. JSD is standing by to partner with DPH/BRH and CBJ on vaccination clinics for 12-15 year olds as soon as clearance is provided to do so.

Commercial air traffic continues to increase. Details are at the end of this report.

CBJ COVID-19 Response

Vaccine clinics:
Monday clinics at downtown churches resulted in 21 doses of vaccine being administered. The second dose clinic is May 17th.

Second dose clinics for POD 6b are running through Thursday at Centennial Hall and 7b will be on Friday at the high schools.

The Vaccination Planning team is meeting today to plan clinics in May.

**Daily Numbers Report:** We are reporting 4 new cases today (Monday 1:00 pm – Wednesday 1:00 pm).

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard.

**Disease Transmission/Contact Tracing:**
We are reporting 4 new resident cases and no new nonresident cases. 1 case is secondary infection, 1 case is travel related and 2 are under investigation. The cluster at TMHS is at 8 with 5 recovered though not all positive cases are directly connected to the school. Directly connected is defined as staff or student.

That State is reporting 183 new cases today bringing the statewide total to 67,834 cases. This is a total of 325 new cases since the last EOC report.

**Testing:** 124 COVID tests were processed at BRH between over the last two days, all tests returned in less than 24 hours.

**Total:** 59.2% of the total population of Juneau has received at least 1 dose of vaccine and 50.9% have completed their vaccine series.

16+: 73.3% of the age eligible Juneau population has received at least 1 dose of vaccine. 63.0% have completed their vaccine series.

65+: 93.5% of this age group has at least one dose of vaccine. 89.0% have completed the vaccine series.

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (https://globalepidemics.org/key-metrics-for-covid-suppression/) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website.
