DATE: June 30, 2021
 TO: CBJ Assembly
 FROM: Mila Cosgrove, Incident Commander
 RE: **Situational Update –Level 1 Minimal-** Operational Period 34 (06/30/21 – 07/31/21)

Overall Community Risk	Disease Situation	Hospital Capacity	Public Health Capacity
Level 1b - Minimal	The community continues to experience consistent positive case activity.. Variants are present. Vaccine is available.	The hospital case load is stable.	Contact tracing is stable.

The Complete CBJ COVID-19 Dashboard can be found [here](#) or by going to [Juneau.org/ COVID-19](http://Juneau.org/COVID-19)

Situation Assessment: The 14 and 7 day case rates are at the low alert level. Four variants of concern have been identified in Juneau - (Alpha/B.1.1.7, Beta/B.1.351, Gamma/P1, and Delta/B.1.617.2/AY.1). Variants appear to be contained but the public is reminded to follow appropriate precautions when traveling. Case rates in the Anchorage area are climbing.

Issues of Note:

The State is sending out 2nd dose reminders to people who have not followed through with receiving their second dose. In Juneau, we think that is a relatively small number but public health is requesting localized data to confirm.

June & July Clinics:

July 1 & 8, 15, 22 & 29: 9 am – 4 pm, Juneau Public Health Center, 3412 Glacier Hwy
July 12: 3:30 – 6:30, Gross Alaska Theatre, Valley location, Cinema Drive
July 15, 22 & 29: 9 am – 4 pm, Juneau Public Health Center, 3412 Glacier Hwy

Daily Numbers Report: We are reporting 1 new case today (Monday 1:00 pm - Wednesday 1:00 pm).

COVID-19 In Juneau				
	Active	Recovered	Deceased	Cumulative
Resident	2	1,374	5	1,381
Nonresident	0	167	0	167
Total	2	1,541	5	1,548

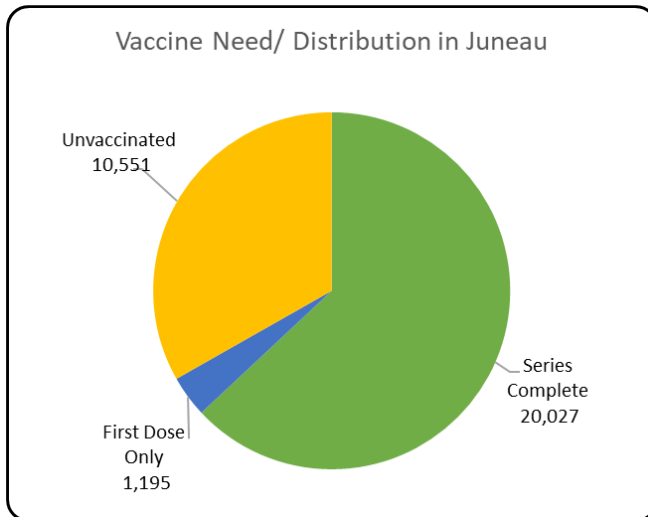

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard.

Disease Transmission/Contact Tracing:

We are reporting 1 new resident case and no new nonresident cases. The reported case is under investigation.

That State is reporting 88 new cases within the past 3 days bringing the statewide total to 71,275 cases.

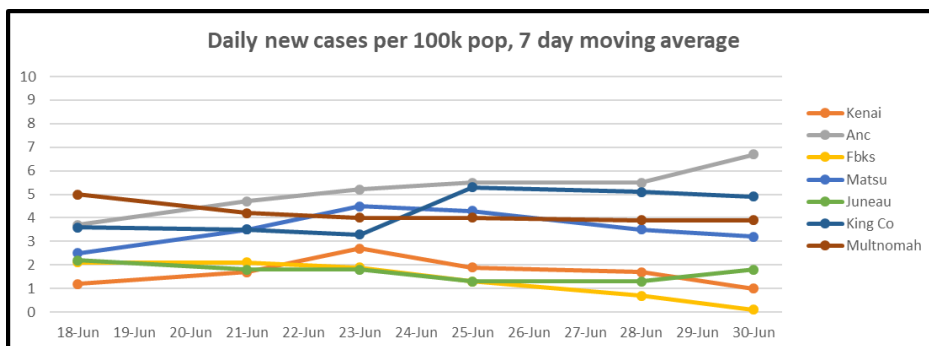

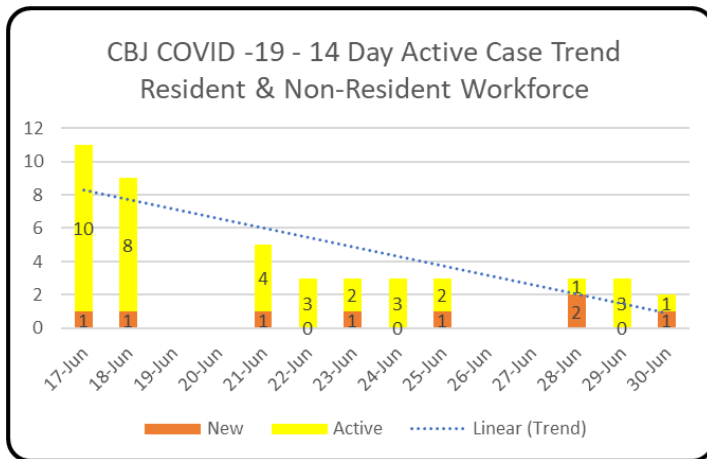

81 COVID tests were processed through BRH since the last EOC report, all with less than 24 hour turnaround

Total: **66.8%** of the of the total population of Juneau has received at least 1 dose of vaccine and **63.0%** have completed their vaccine series.

12+: **77.8%** of the age eligible Juneau population has received at least 1 dose of vaccine. **73.5%** have completed their vaccine series.

65+: **90%** of this age group has at least one dose of vaccine. **88%** have completed the vaccine series. (State updated dashboard)

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website
