The site of the work is Harris Street from 4th Street to 7th Street in downtown Juneau, Alaska.

General Design Requirements

- H. The Consultant shall conduct all necessary field surveys for design, including a comprehensive as-built survey with elevations and field-located public and private utilities giving particular attention to potential conflicts with all utilities, and to surface and subsurface drainage from adjacent properties. The surveys shall extend up the intersecting streets a sufficient distance to provide a complete assessment of design needs at the intersection and to allow for future utility expansion as applicable. The Consultant shall establish the design control lines at the project site during the design phase. The horizontal and vertical data for the control lines shall be shown on the contract drawings and shall set a minimum of two (2) fixed control points, within sight of each other, for each control line.

There shall be no additional compensation for overtime, weekend, or holiday work.

Compensation for subconsultants shall be equal to the amounts actually paid to sub-consultants hereunder plus a negotiated mark-up percentage.

Compensation for expenses shall be an amount equal to reimbursable expenses approved in advance by the CBJ Project Manager, necessary and reasonably incurred and actually paid by

The Consultant shall substantiate all billings for reimbursable expenses in excess of \$25 with receipted bills and provide said receipts with the appropriate billing.

The Consultant shall keep, and cause any sub-consultants to keep, daily records of the time spent in the performance of services hereunder by all persons whose billing rates will be the basis for compensation as well as records and receipts of reimbursable expenditures hereunder. Failure to do so shall be a conclusive waiver of any right to compensation for such services or expenses as are otherwise compensable hereunder.

The CBJ shall have the right to inspect all records of the Consultant, and of any sub-consultants, pertaining to this project. Records shall be maintained by the Consultant and sub-consultants for a period of three years after completion of services.
