I would somewhat agree with Kirby on the issue of the covered area but build one that would be more permanent similar to the cement one out at the Floyd Dryden Middle School that would meet a height level above the busses and can be built as close to the curb as needed. The cost of man hours would be too much for a seasonal install and removal of the cover.

Dwight

**TBMP members -- pls respond to the CBJ as directed in their prior email about this project.**  
**Thanks, Kirby Day**

Thanks Gary - initially I was against this plan as I was concerned about traffic coming out of the new Twisted Fish parking lot "head-on" into buses in the Columbia Lot. At this point, I have left it to the major motorcoach companies to comment, along with other TBMP users.

One item I would suggest, that if we are going to spend the marine passenger fee money for this project, and I agree that should be the source of the funding, I would ask that we re-instate and plan for the covered area (approx 15' wide x 100' long) to be erected near the staging area so passengers can wait out of the rain for their coaches. It can be steel frame and canvas that can be taken down in the winter -- much like is at the Franklin Dock and the AJ Dock - that is assuming something like that is less expensive than one with a permanent roof on it that meets wind-load specifications.

Thanks Gary.  
Best Rgds, Kirby

Thanks Kirby  
I double checked the attachments and realized I sent you the wrong ones. The correct ones are attached and went out to the list you provided, along with the letter from John.

Subject: Columbia Lot Proposed Changes

Hello Kirby

I believe John Stone mentioned to you that there is a proposal by CBJ Engineering to make some changes to the Taku Smokery parking lot resulting in impacts to the Columbia lot. Attached is John's letter with attachments. We are sending this to all dock permit holders. In addition we seek input from the Tourism Best Management Practices group. John asked me to contact you for the TBMP mailing list so we could send this information to the members for comment.

I would appreciate if you would send me the list so I can get a letter out in a timely fashion. We plan to discuss this issue at the Harbor Board CIP Committee meeting on October 28, 2008.

Thanks for your assistance.
