Subject: Juneau Cruise Ship Response Operations Annual Review Meeting

Good Day:

It's time once again to invest a small amount of time to prepare for our joint efforts if needed during the 2011 cruise ship season.

Similar to last year, I am proposing a 90 minute lunch time meeting of the major stakeholders to review our local plans. This will be run as a "Command and General Staff Meeting" except with pizza. See below for agenda summary

Proposed Date: 20 April (Option is April 19)
Time: 1145-1315
Location: Juneau Fire Hall Training Room. (Capt Etheridge please confirm)

Attendees: Local USCG, CBJ, and industry responders.

I do not have a contact for the Hospital, and I am sure there may be others who have a need to attend not listed. Please forward as needed and copy me so I can track.

Please confirm support, attendance or recommended alternatives.
Thanks

Rick Janelle'

op
General Over View
Goal: Review and update the joint maritime response operations for a cruise ship contingency.

Agenda Topics:

Unified Command representation and transition expectations (including updating US contact info)
ICP location/Access
Initial UC objectives and priorities
MRO/SAR response organization
Expected initial actions
Landing site location identification, operations and set supervisor expectations
Reception center identification and operations
Discussion with all responsible parties on accountability concerns
Identification of EMS support and transportation flow options
