Bridge to Gold Creek, current project (2016 - 2017)

< 1-1 >

How did this project come into being?

How is the project being constructed and how much does it cost?

In order to make optimal use of the contracting expertise available in the area, the project is being constructed in three major phases as follows:

Phase 1 - Sitework

This contract includes all the major fill for the island and park, and was awarded to McG Constructors for \$2.55 million. Anticipated completion is July 2016.

Phase 2 - Elevated Structures

This contract includes the pile-supported walkways from the park to the island and from the island to Gold Creek and Egan Drive. It was awarded to North Pacific Erectors for \$4.06 million.

For further information, contact SBI Consulting at (907) 586-0900, or email @ skye.stekoll@Juneau.org

Ex. 115, p. 1

and be completed by the spring of 2017.

Phase 3 - Completion

This contract includes final landscaping and park features, and will be bid during the spring of 2016. It is anticipated to cost \$3.0 to \$3.5 million and be completed during the early summer of 2017.

In addition to this work, the whale sculpture in Bridge Park is being fabricated by a bronze foundry in eastern Oregon. It is anticipated to arrive in Juneau in July 2016. Its fabrication is being overseen by The Whale Project, with an anticipated cost of \$2.9 million.

How is the project being funded?

Will other improvements be made in adjacent areas?

How will traffic be handled to the park and whale sculpture?

How much fill is going into the island?

How long is this segment of the seawalk?

How was the project permitted?
