What is an Area Plan/Neighborhood Plan?

While the Comprehensive Plan is the overarching 20-year vision and policy document for the entirety of the CBJ, an area plan is a more specific neighborhood or area-based plan geared towards the area it serves. It addresses the specific issues and make up of that area – it's a more specific plan rather than a general plan.

Requests for neighborhood plans are made by the Assembly

- The Planning Commission (PC), neighborhood associations, and other interested groups may make recommendations to the Assembly.
- Boundaries should be drafted by staff with input from the Director, the Steering Committee, and the public.

Scheduling -

- Ideally, a neighborhood plan should be completed within 18 to 24 months of commencement.
- A draft of the Blueprint Downtown Juneau Neighborhood Plan will be completed in 2020.

Planning Team Appointment -

- You are part of the planning team!
- Your Steering Committee is compiled of residents, property owners, business owners and employees in downtown Juneau.
- It is a big commitment but the rewards are worth it.
- You will directly influence the planning process.

Draft Plan Document -

- After the document is prepared, you will be given a copy at least two weeks prior to any public meeting.
- There will be at least a two week public comment period.
- Planning staff will make recommendations to you - the Steering Committee - that address the comments received.
- The Steering Committee will decide whether or not to incorporate the comments into the draft plan.

Review and Recommendation -

- Once the draft is complete, you will vote to recommend each section of the draft plan to the Planning Commission.
- Each section will either be recommended to the Planning Commission or sent back to CDD for revision.

Public Hearings -

- The Planning Commission will hold a public meeting to gather input from the general public on the draft plan.
- A second public meeting will be held before the Commission makes their final recommendation to the Assembly.
- The Assembly will have a minimum of two public hearings (one for Introduction, one for public input)

Implementation and Monitoring -

- The goal of any neighborhood plan is implementation.
- The Steering Committee and all public participants are encouraged to stay involved in the implementation process.
- Implementation can be accomplished through integration into the Comprehensive Plan, the Capital Improvement Program and the CBJ budgetary process.
- An annual report regarding the plan implementation will be provided each year to the Planning Commission and Assembly

Steering Committee Duties -

- Volunteer your time
- Commit to attending meetings
- Commit to compromise and consensus building
- Listen and consider public testimony
- Develop a plan that represents Downtown Juneau
- Distribute accurate and helpful information to the community

Steering Committee Duties -

- Length of term is 12 to 18 months
- Must attend at least 50% of Steering Committee meetings
- Should not miss three meetings in a row

Comprehensive Plan

Comprehensive planning is a process that determines community goals and aspirations in terms of community development. A comprehensive plan is a local government's guide to a community's physical, social, and economic development.

Comprehensive plans are not meant to serve as land use regulations in themselves; instead, they provide a rational basis for local land use decisions with a twenty-year vision for future planning and community decisions.

- ✓ **Other?**

Building Consensus

Consensus means everyone agrees, right?

NO, it means....

- I had the opportunity to share my opinions**
- I agree that the decision was arrived at fairly and openly**
- I will support the decision (even if it is not my preferred choice)**
