■ PROJECT DESCRIPTION

1. Provide a brief description of your entire project and ALL associated facilities and land use conversions.

The Old Douglas Harbor Renovation project includes the following construction activities as shown on the drawings:

- Removal of approximately 18,000 SF of existing moorage floats and all associated finger floats, (55) creosote timber piles, boat launch ramp and float, boat repair grid, and steel gangway. Removal of existing "City Dock" consisting of 16,200 SF of timber dock and 225 piles.
- Addition of approximately 21,000 SF of treated timber moorage floats with (61) galvanized steel piles and a 7'x80' covered aluminum gangway.
- Addition of filter rock and riprap to stabilize banks and for uplands improvements
- Addition of modern electrical and water services
- Approximately 18,000 CY of dredging to allow for increased moorage

Proposed starting date for project: 10/01/07 Proposed ending date for project: 10/01/08

2. Attach the following: • a <u>detailed project description</u>, all associated facilities, and land use conversions, etc. (Be specific, including access roads, caretaker facilities, waste disposal sites, etc.); • a project <u>timeline</u> for completion of all major activities; • a <u>site plan</u> depicting project boundary with all proposed actions; • other <u>supporting</u> <u>documentation</u> to facilitate project review. Note: If the project is a modification, identify existing facilities and proposed changes on the site plan.

■ PROJECT LOCATION

1.	Attach a copy of the topographical and vicinity map clearly indicating the location of the project. Please include a map title and scale.
2.	The project is located in which region (see attached map): Northern Southcentral Southeast within or associated with the Trans-Alaska Pipeline corridor
3.	Location of project (Include the name of the nearest land feature or body of water.) Douglas Small Boat Harbor, Gastineau Channel
	Township 41S Range 67E Section 23 Meridian Copper River Latitude/Longitude 58° 16'30" / 134° 23'8" USGS Quad Map
4.	Is the project located in a coastal district? Yes No If yes, identify: City and Borough of Juneau (Coastal districts are a municipality or borough, home rule or first class city, second class with planning, or coastal resource service area.) Note: A coastal district is a participant in the State's consistency review process. It is possible for the State review to be adjusted to accommodate a local permitting public hearing. Early interaction with the district is important; please contact the district representative listed on the attached contact list.
5.	Identify the communities closest to your project location: City and Borough of Juneau
6.	The project is on: State land or water* Federal land Private land Municipal land Mental Health Trust land *State land can be uplands, tidelands, or submerged lands to 3 miles offshore. See Question #1 in DNR section. Contact the applicable landowner(s) to obtain necessary authorizations.
DEP	ARTMENT OF ENVIRONMENTAL CONSERVATION (DEC) APPROVALS
1.	Will a discharge of wastewater from industrial or commercial operations occur?

		ill the discharge be connected to an approved sewer system?	
2.	or g	you intend to construct, install, modify, or use any part of a wastewater (sewage greywater) disposal system?	
		If the answer is yes, will the discharge be 500 gallons per day or greater?	
	D)	If constructing a domestic wastewater treatment or disposal system, will the system be located within fill material requiring a COE permit?	
		you answered yes to a) or b), answer the following:	
	1)	What is the distance from the bottom of the system to the top of the subsurface water table?	
	2)	How far is any part of the wastewater disposal system from the nearest surface water?	
		Is the surrounding area inundated with water at any time of the year?	
	4)	How big is the fill area to be used for the absorption system?	
		(Questions 1 & 2 will be used by DEC to determine whether separation distances are being met; Questions 3 & 4 relate to the required size of the fill if wetlands are involved.)	
3.	W/:1	Yes	No
٥.	(If yo	ll your project require a mixing zone?	\boxtimes
4.	a)	Will your project result in construction, operation, or closure of a facility for solid waste disposal?	\boxtimes
		(Note: Solid waste means drilling wastes, household garbage, refuse, sludge, construction or demolition wastes, industrial solid waste, asbestos, and other discarded, abandoned, or unwanted solid or semi-solid material, whether or not subject to decomposition, originating from any source. Disposal means placement of solid waste on land.)	YY
	b)	Will your project result in treatment of solid waste at the site?	\boxtimes
	`	(Examples of treatment methods include, but are not limited to: incineration, open burning, baling, and composting.)	
	c)	Will your project result in storage or transfer of solid waste at the site?	\boxtimes
	d)	Will the project result in storage of more than 50 tons of materials for reuse, recycling, or resource recovery?	\boxtimes
	e)	Will any sewage solids or biosolids be disposed of or land-applied to the site?	×
5.	Wil	ll your project require application of oil, pesticides, and/or any other broadcast	
	che	micals?	\boxtimes
6.	a)	Will you have a facility with industrial processes that are designed to process no less than <i>five tons per hour</i> and needs air pollution controls to comply with State	571
	L)	emission standards?	\boxtimes
	b)	Will you have stationary or transportable fuel burning equipment, including flares, with a total fuel consumption capacity no less than 50 million Btu/hour?	\boxtimes
	c)	Will you have a facility with incinerators having a total charging capacity of no less	
	•)	than 1,000 pounds per hour?	\boxtimes
	d)	Will you have a facility with equipment or processes that are subject to Federal New	
		Source Performance Standards or National Emission Standards for hazardous air pollutants?	\boxtimes
	e)	Will you have a facility with the potential to emit no less than 100 tons per year of any	لحا
	,	regulated air contaminant?	\boxtimes
	f)	Will you have a facility with the potential to emit no less than 10 tons per year of any	
		hazardous air contaminant or 25 tons per year of all hazardous air contaminants?	\boxtimes

		g)	Will you construct or add stationary or transportable fuel burn than 10 million Btu/hour in the City of Unalaska or the City o			
		h)	Will you construct or modify in the Port of Anchorage a volat			\boxtimes
		/	a volume no less than 9,000 barrels, or a volatile liquid loadin	1 2		
			throughput no less than 15 million gallons?			\boxtimes
		i)	Will you be requesting operational or physical limits designed an existing facility in an air quality nonattainment area to offs			
			from another new of modified facility?			\boxtimes
			·			
	7.	Do	you plan to develop, construct, install, or alter a public water sy	stem?	🛛	
	8.	a)	Will your project involve the operation of waterborne tank ver	S		
			that carry crude or non-crude oil as bulk cargo, or the transfer		_	5
		h)	petroleum products to or from such a vessel or a pipeline syste			\boxtimes
		b)	Will your project require or include onshore or offshore oil face effective aggregate storage capacity of greater than 5,000 barr			
			or greater than 10,000 barrels of non-crude oil?			\boxtimes
			,		_	_
		,	W	•	Yes	No
		c)	Will you operate facilities on land or water for exploration or of hydrocarbons?			\boxtimes
	If v	von s	inswered "No" to ALL questions in this section, continue to
