

ADMINISTRATIVE GUIDELINES
AVIATION FUEL
Procedure 428

69.05.040 (28) Sales of aviation fuel and aviation fuel delivery services at the Juneau International Airport.

The CBJ Airport Board imposes a fuel flowage fee on the sale of aviation fuel or the service of pumping the fuel at the Juneau International Airport. The fuel flowage fee is paid to and is directly regulated and administered by the Juneau Airport Board.

Rather than impose a fuel flowage fee and a sales tax the CBJ Assembly exempted the sale of aviation fuel and the fuel pumping services on the airport property from the sales tax.
