INTRODUCTION

Each year, the City and Borough of Juneau (CBJ) adopts a Capital Improvement Program (CIP). The legal requirements applicable to the CIP are set forth in Section 9 of the CBJ Charter. In general, the CIP is a plan of capital improvements proposed for a six-year period, together with an estimated cost of each improvement and the proposed method of financing it. The CIP serves as the overarching strategic plan for improving the public infrastructure of Juneau and is collectively developed by the CBJ Assembly, its boards and commissions, CBJ staff, and the citizens of CBJ.

The CBJ Charter requires the City Manager to assemble and submit a Preliminary CIP to the Assembly by April 5 of each year. The Charter further requires this document to be available for public inspection. This document is available from the CBJ Engineering Department at the third floor of the Marine View Building, or online at http://www.juneau.org/engineering/CIP_Process.php.

By May 1st, the Charter requires the Assembly to hold a public hearing on the CIP. In addition to the Charter requirement, the Assembly holds public hearings at its Public Works and Facilities Committee. The Planning Commission reviews it for conformance with the Area Wide Comprehensive Plan. The meetings are announced in the Juneau Empire, on the CBJ's Web Pages, and the public access channel. Citizens are encouraged to provide their comments at these meetings.

The Planning Commission discussed and made recommendations to the CIP at its March 27th meeting. The Assembly Public Works and Facilities Committee (PWFC) reviewed the CIP at its February 27th, and March 12th meetings. The CIP was forwarded to the Assembly Finance Committee at the March 12th PWFC meeting. The CIP was reviewed at the Assembly Finance Committee meeting on April 11th and forwarded to the Assembly. On April 23rd the Assembly held a public hearing on the CIP.

By June 15th, the Assembly must adopt its own CIP or the City Manager's CIP. In practice, the Assembly uses the Manager's CIP as the starting point, adjusts it during the public comment period, and adopts its own CIP at the same time it adopts the budget in early June. The Assembly approved this CIP on June 4, 2012 and Resolution 2610 was adopted.

FY 2013 CIP IMPROVEMENTS

This section of the CIP lists capital improvements approved by the Assembly for FY 2013. Resolution number 2610 adopting the City and Borough Capital Improvement Program for fiscal years 2013 through 2018, and establishing the capital improvement project priorities for fiscal year 2013 is shown along with a table that shows the name of each improvement, the department recommending the improvement, and the amount and type of funding approved by the Assembly. Some of the projects listed herein are not CIP projects but have been inserted for clarity of fund distribution.

A summary table at the end of the section lists all funding sources, and the total amount recommended for expenditure in each fund.

The following criteria is used in determining approval of capital improvement projects:

Support: Projects that are a high priority of the Department or Committee proposing it, as well as the general public.

Consistency: Projects that are consistent with applicable CBJ plans or policies.

Health and Safety: Projects that will address an imminent or expected threat or danger to users or occupants.

Maintenance or Repair of Existing Property: Projects that will prevent further deterioration or damage to property.

Local Match for Federal/State Grants: Funds required to match federal or state capital project funds.

Maintenance Impact: Projects that will increase efficiency and reduce on-going operating costs.

Economic Development Stimulus: Projects that directly or indirectly stimulate economic development in the community.

Anticipated Need: Projects that enhance or expand an existing facility or service to accommodate increased public use.

Recreational: Projects that establish, enhance or expand a facility or service to accommodate new or increase public use.

Funding Alternatives: Funding alternatives are explored for each project.

RESOLUTION OF THE CITY AND BOROUGH OF JUNEAU, ALASKA

Serial No. 2610

A Resolution Adopting the City and Borough Capital Improvement Program for Fiscal Years 2013 Through 2018, and Establishing the Capital Improvement Project Priorities for Fiscal Year 2013.

WHEREAS, the Capital Improvement Program is a plan for capital improvement projects proposed for the next six fiscal years; and

WHEREAS, the Assembly has reviewed the Capital Improvement Program for Fiscal Year 2013 through Fiscal Year 2018, and has determined the capital improvement project priorities for Fiscal Year 2013.

NOW, THEREFORE, BE IT RESOLVED BY THE ASSEMBLY OF THE CITY AND BOROUGH OF JUNEAU, ALASKA:

Section 1. Capital Improvement Program. Attachment A, entitled "City and Borough of Juneau Capital Improvement Program, Fiscal Years 2013 - 2018, Preliminary Report" dated May 29, 2012, is adopted as the Capital Improvement Program for the City and Borough with the following revisions:

**FISCAL YEAR 2013
GENERAL SALES TAX IMPROVEMENTS**

DEPARTMENT	PROJECT	FY13 BUDGET
Administration	PRISM Lease	\$ 685,000
Administration	IT Infrastructure Modernization	\$ 150,000
Parks & Recreation	OHV Park Phase I	85,000
Parks & Recreation	Bridget Cove Trail	80,000
	TOTAL	\$ <u>1,000,000</u>

**FISCAL YEAR 2013
AREAWIDE SALES TAX PRIORITIES**

DEPARTMENT	PROJECT	FY13 BUDGET
Eaglecrest	Lift/Mountain Operational Improvements	300,000
Fire	Glacier Fire Station Repairs	75,000
Parks & Recreation	LCB Mining Museum Pedestrian Bridge	100,000
Parks & Recreation	JD City Museum Mechanical & Energy Efficiency	200,000
Parks & Recreation	Park & Playground Repairs & Improvements	275,000
Parks & Recreation	Auke Lake Wayside DOT/PF Match	170,000
Street Maintenance	Consolidated PW Shop Security	30,000
Street Maintenance	AW Drainage Improvements	250,000
Street Maintenance	Pavement Management	850,000
Street Maintenance	AW Snow Storage Improvements	1,200,000
Street Maintenance	Pioneer Avenue Phase II	1,300,000
Street Maintenance	Lakewood Subdivision Recon	600,000
Streets & Water	Bayview Subdivision - Horizon Drive Reconstruction	1,900,000
Engineering	Eagles Edge Subdiv. Phase I	700,000
Engineering	Riverside Drive DOT/PF Match	300,000
Engineering	Tanner's Terrace LID	150,000
Engineering	Contaminated Sites Reporting	50,000
Transit	Bus Shelters	50,000
	TOTAL \$	<u>8,500,000</u>

**FISCAL YEAR 2013
 TEMPORARY 1% SALES TAX PRIORITIES
 Voter Approved Sales Tax 10/01/08 - 09/30/13**

DEPARTMENT	PROJECT	FY13 BUDGET
Schools	School Debt Retirement	\$ 800,000
Building Maint.	Deferred Building Maintenance	720,000
Airport	Airport Terminal	2,380,000
Lands	Switzer Area Muni Land Development	1,300,000
Engineering	West Juneau - North Douglas Connection	1,300,000
		<u>\$ 6,500,000</u>

(a) Marine Passenger Fee projects will be as follows:

**FISCAL YEAR 2013
 MARINE PASSENGER FEE PRIORITIES**

DEPARTMENT	PROJECT	FY13 BUDGET
Docks	Cruise Ship Dock Cathodic Protection	\$ 500,000
Parks & Recreation	Waterfront Seawalk	671,800
	TOTAL	<u>\$ 1,171,800</u>

(b) Port Development Fee will be as follows:

**FISCAL YEAR 2013
 PORT DEVELOPMENT FEE PRIORITIES**

Docks	Downtown Cruise Ship Berth Enhancements	\$ 2,800,000
	TOTAL	<u>\$ 2,800,000</u>

(c) State Marine Passenger Fee will be as follows:

**FISCAL YEAR 2013
 STATE MARINE PASSENGER FEE PRIORITIES**

Docks	Downtown Cruise Ship Berth Enhancements	\$ 4,000,000
	TOTAL	<u>\$ 4,000,000</u>

**FISCAL YEAR 2013
WATER ENTERPRISE FUND**

DEPARTMENT	PROJECT	FY13 BUDGET
Water	JD Bridge Water Pipe Expansion Joints	200,000
Water	SCADA System Upgrades	120,000
TOTAL		\$ <u>320,000</u>

**FISCAL YEAR 2013
WASTEWATER ENTERPRISE FUND**

DEPARTMENT	PROJECT	FY13 BUDGET
Sewer	Lawson Creek Lift Station	575,000
Sewer	Pump & Motor Replacement	100,000
Sewer	SCADA Improvments	100,000
Sewer	Energy Efficiency and Security Improvmeents	100,000
TOTAL		\$ <u>875,000</u>

(c) The following projects are identified as priorities for FY2013 but are dependent on other unsecured funding sources:

**FISCAL YEAR 2013
BRH UNSCHEDULED FUNDING**

DEPARTMENT	PROJECT	
BRH	Child & Adolescent Health Care	\$ 13,000,000
BRH	Information Systems/Electronic Health Records	7,000,000
TOTAL		\$ <u>20,000,000</u>

**FISCAL YEAR 2013
AIRPORT UNSCHEDULED FUNDING**

DEPARTMENT	PROJECT	
Airport	Snow Removal Equipment Facility	\$ 23,700,000
Airport	Runway Safety Area Phase II	30,000,000
Airport	Airport Master Plan	750,750
TOTAL		\$ <u>54,450,750</u>

**FISCAL YEAR 2013
UNSCHEDULED FUNDING (State Grant Requests)**

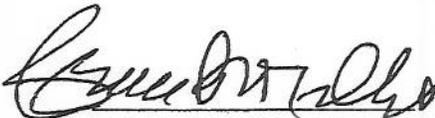

DEPARTMENT	PROJECT	
Airport	Snow Removal Equipment Facility Match	3,100,000
Police	Crisis Intervention Specialist	125,000
BRH	Child & Adolescent Health Care	2,000,000
Streets	Snow Storage Facilities	2,000,000
Fire	Communications Replacement	375,000
Fire	Mobile Data Terminals	66,000
Streets	Chemical Storage Shed	1,500,000
Harbors	Aurora Harbor Reconstruction	2,000,000
Police	Dispatch Software	122,000
Parks & Recreation	Centennial Hall Roof	1,300,000
Harbors	Statter Harbor Haul-Out Ramp	1,800,000
Library	Dimond Park Library	7,000,000

Section 2. Fiscal Year 2013 Budget. The capital improvement project budget allocations for sales tax and marine passenger fees established by the tables set forth in the FY2013 Capital Improvements List section shall become a part of the City and Borough of Juneau's Fiscal Year 2013 Budget.

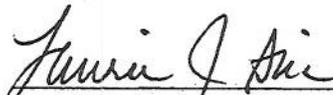

Section 3. State and Federal Funding. To the extent that a project in the Capital Improvement Program includes state funding, federal funding, or both, the amount of funding for that project is an estimate only.

Section 4. Effective Date. This resolution shall be effective immediately upon adoption.

Adopted this 4th day of June, 2012.

 Bruce Botelho, Mayor

SIX-YEAR DEPARTMENT IMPROVEMENT PLANS

This section of the CIP shows the capital improvement plan for each CBJ department for fiscal years 2013 – 2018. The plans were submitted by the director of the department and were developed in conjunction with governing board or committees. For example, the Docks and Harbors plan was submitted by the Port Director and developed by the Port Director and the Docks and Harbors Board.

The projects identified for 2013 are those approved by the Assembly for funding in FY 2013. Projects identified in years 2014 and 2015 will be recommended for funding in the coming fiscal years. Those projects identified for funding beyond 2015 provide a general direction of capital spending in those years, not a specific direction.

SIX-YEAR DEPARTMENT IMPROVEMENT PLANS

<u>Division</u>	<u>Project</u>	<u>Priority</u>	<u>FY13</u>	<u>FY14</u>	<u>FY15</u>	<u>FY16</u>	<u>FY17</u>	<u>FY18</u>	<u>Future</u>
Administration									
Manager's Office	PRISM - Core Financial System Replcment Lease	1	\$ 685,000	\$ 817,830	\$ 817,830	\$ 487,940			
	IT Infrastructure Modernization	2	\$ 150,000						
Administration Total:			\$ 835,000	\$ 817,830	\$ 817,830	\$ 487,940	\$ -	\$ -	\$ -
Airport									
	JIA Terminal Renovation	1	\$ 2,380,000						
	Construct Snow Removal Equipment Facility (SREF/Shop) - Phase II	2	\$ 26,800,000						
	Design and Construct 8-26 Runway Safety Area - Phase II	3	\$ 30,000,000						
	Update Airport Master Plan	4	\$ 750,750						
	Design Work to New North Terminal and/or Parking Facility	5		\$ 1,000,000					
	Design SREF Sand & Chemical Building - Ph III	6		\$ 612,000					
	Design and Construct Apron, Drainage, Electrical, Taxiways and Tie-Downs (NE Quad)	7		\$ 6,444,000					
	Replace Snow Removal Equipment and Vehicles	8			\$ 7,663,300				
	Replace North Wing Terminal and/or Construct Parking Facility	9			TBD				
	Construct SREF Sand & Chemical Bldg - Ph III	10			\$ 13,400,000				
	Design and Construct Rehab of Runway 8-26 and Taxiways per 2007 Pavement Condition Report (PCR)	11			TBD				
	Design and Construct Replacement of Runway and Taxiway Lighting Cans, Cable and Conduit	12			TBD				
	Design and Construct Taxiway Centerline Lights	13			TBD				
	Design and Construct Rehab of Cessna Drive, Alex Holden and Renshaw Ways Access Roads Drainage, Curb & Sidewalk.	14			TBD				
	Design and Construct Aircraft Deicing Recovery and Collection System	15				TBD			
	Design and Construct Rehab of Crest Street ARFF Access Road from ARFF Station to Yandukin Drive.	16				TBD			
	Design and Construct Rehab of Yandukin Drive Access Road from Ward Air to FEDEX - Drainage, Curb, Sidewalk and Access	17				TBD			
	Design and Construct Aircraft Rescue and Firefighting (ARFF) Vehicle Bay	18					TBD		
	Acquire 3000-gal ARFF Vehicle - Index C - Unit A-3	19						TBD	
	Design and Construct Overflow Parking Area	20						TBD	

SIX-YEAR DEPARTMENT IMPROVEMENT PLANS

Division	Project	Priority	FY13	FY14	FY15	FY16	FY17	FY18	Future

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
<u>Administration</u>	Manager's Office	1	PRISM - CORE FINANCIAL SYSTEM REPLACEMENT LEASE – this project is to replace the CBJ's aged financial and billing systems, the assessor's appraisal system, and the human resources and payroll systems with an integrated and more functional system. Funding is for software, hardware, and professional services.
		2	IT BACKBONE INFRASTRUCTURE MODERNIZATION - to modernize the City's current information system's infrastructure to a level that can meet the demands of today's technology requirements for functionality, stability, and disaster recovery solutions. The following projects that will address these concerns will be, but not be limited to: standardized document development solutions, virtualization of core services, wireless backbone build out, and mass network storage to provide recoverability and redundancy of critical data.
<u>Airport</u>		1	DESIGN WORK FOR NEW NORTH TERMINAL AND/OR FOR PARKING FACILITY - design to replace old sections of terminal and/or construct parking facility.
		2	CONSTRUCTION SNOW REMOVAL EQUIPMENT FACILITY (SREF/SHOP) PHASE II - construct inside storage & maintenance shop per FAA requirements to extend useful life of airfield equipment.
		3	DESIGN & CONSTRUCT 8-26 RUNWAY SAFETY AREA - PHASE II - construct pavement, electrical, drainage and tie-downs, NW Quad and East Side.
		4	UPDATE AIRPORT MASTER PLAN - update has been delayed because of FEIS and RSA projects. Last update was done in 1999.
<u>Bartlett Regional Hospital</u>		1	CHILD & ADOLESCENT MENTAL HEALTH CARE UNIT - current estimate of total cost is \$23 million. By the end of this fiscal year \$10 million will be budgeted and set aside. A presentation was done at the January 23, 2012 PWFC meeting seeking approx. \$5 million in sales tax proceeds. Another \$8 million would come from State of Alaska, Mental Health Trust, or other sources.
		2	INFORMATION SYSTEMS/ELECTRONIC HEALTH RECORDS - with health care reform there is an increasing need and looming mandates around an Electronic Medical Record/Electronic Health Record. BRH estimates that total costs to upgrade systems over the next couple of years will come to approximately \$7 million.
<u>Building Maintenance</u>		1	DEFERRED BUILDING MAINTENANCE – on-going capital funded projects to repair CBJ buildings. Reduce maintenance costs and enhance building components by correcting a backlog of problems that have surfaced from years of neglect.

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
Docks & Harbors	Docks	1	DOWNTOWN CRUISE SHIP BERTH ENHANCEMENTS (16-B) – this project is located in the downtown Juneau waterfront, an area that serves nearly 1,000,000 cruise ship passengers each year. The project consists of constructing two new floating berths adjacent to the existing fixed dock. The current dock cannot handle the loading of newer larger ships that currently call on the Port of Juneau. The new berths would be accessed at two security controlled locations thereby eliminating the need for the current yellow barriers along the dock thus improving public access along the waterfront. The project is estimated to cost \$47M. A funding strategy has been approved by the Assembly that would utilize state impact fees and local port development fees over a number of years. Obligation bonds would be sold to support the needed cash flow for construction and those bonds would be paid back with the ongoing state impact fees and local port development fees.
		2	CRUISE SHIP DOCK CATHODIC PROTECTION - this project is located along the downtown Juneau waterfront, an area that serves approximately one million cruise ship passengers each year. The project consists of replacement of a cathodic protection system, pile replacement and sheet pile coating.
	Harbors	1	AURORA HARBOR REBUILD - PHASE I - the Aurora Harbor moorage facility is well beyond its design life and in need of replacement. A preliminary design was performed in 2010 by PND Engineers and the replacement cost is estimated to be \$18M. Given that full funding does not appear imminent the approach is to phase the project as funding allows. Aurora Harbor was originally constructed in phases over time. The oldest section (south end) was constructed with wooden floats, whereas the remaining portion was of concrete construction. The floats, electrical, domestic water systems all need replacement. In recent years all but the main gang ramp was replaced and these newer ramps will be re-used in the replacement project. The first phase of the project would replace the wooden main float; wooden head floats and fingers; main gang ramp and structure; as well as the electrical and domestic water system. In addition a dry stand pipe fire suppression system would be installed to meet current codes. The estimate for Phase I of the project is \$11M.
		2	STATTER HARBOR HAUL-OUT RAMP - the Auke Bay Haul-Out Facility would replace the existing travel lift facility at Statter Harbor and make improvements to the Auke Bay Loading Facility (ABLF) to provide boat haul out services. The existing wooden travel lift structure at Statter Harbor was investigated and found to be beyond its design life and in need of replacement. Docks and Harbors will take delivery of a new self-propelled boat lift in March 2012. The equipment would serve the ABLF and Statter Harbor. The existing Statter Harbor launch ramp would be replaced with a ramp designed for the new boat life equipment. In addition, a wash down pad and water filter/recycling equipment would be installed at ABLF.

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
Eaglecrest		1	<p>LIFT/MOUNTAIN OPERATIONAL IMPROVEMENTS - which include the following projects:</p> <p>Lodge Maintenance - (\$50,000) - continued funding of small projects that ensure the building remains in serviceable condition until the lodge undergoes a major remodel. In the near term this includes repairing/replacing doors, roof maintenance, new flooring and deck repair.</p> <p>Lift Operations - Terminal Structures - (\$25,000) - Black Bear and Porcupine lifts both need basic roofed structures installed over their terminals in order to prolong the life of motors, gear boxes and other associated equipment.</p> <p>Snow Safety-New Explosives Building (funding to finish project - (\$10,000) - Eaglecrest is required to store explosives used for avalanche mitigation. The existing storage building is antiquated and must be replaced in order to comply with ATF regulations.</p> <p>Lift Operations - Lifting Frames, Misc Lift Parts - (\$35,000) - installation of lifting frames on the mid and upper mountain lifts are needed to ensure more efficient and safe working conditions. We also have the ability to acquire lift parts from a replaced lift in the nearby area and we will take advantage of discounted pricing to build our needed replacement inventory.</p> <p>Mountain Operations - Carl's Bridge - (\$80,000) - two streams form Fish Creek just below the Ptarmigan Chairlift. The road to the top of the mountain drives over this area. The bridge itself is a log structure covered with dirt. The logs are starting to rot away. This is a phased plan with design work performed in FY12 and replacement of the structure in FY13 with one large culvert and backfill to reestablish the road surface.</p> <p>Snow Safety-Mountain Signage - (\$10,000) - Eaglecrest's insurance company has asked that they begin a program of installing run difficulty signage at the beginning of each ski run. A 4 year program was started to install the needed signage on all of the 35 runs at the mountain. In addition, general information signage at the top and bottom of each lift as been incorporated into this four year program.</p> <p>Lodge-Repair Equipment - (\$7,500) - the ski and snowboard edging equipment in the rental/repair shop needs replacing in order to provide proper function and service.</p> <p>Mountain Operations - Trail Conditioning - (\$15,000) - remove stumps and other obstacles from ski runs allowing Eaglecrest to open earlier in the season.</p> <p>Lift Operations - Lift Tower Painting - (\$15,000) - a long term program of painting lift towers needs to occur in order for the lift towers to be assured of a long life expectancy. Eaglecrest has a total of 94 lift towers. Approximately 30 towers per year would be painted along with at least one top and bottom terminal. In the coming years, all towers and terminals will be painted and the lift expectancy of the tower paint is 5 to 7 years.</p>

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
			<p>Lift Operations - Old Shop Repair - (\$45,000) - the old shop building which houses Eaglecrest's lift operations department as well as the site generator plant and other machinery is in need of repair. This will include repairs in the following areas; roof, insulation, and wall repair.</p> <p>Snow Safety - Radio Conversion - (\$7,500) - per FCC mandate we are required to convert our existing wide band VHF hand held radios to a narrow band format.</p>
Engineering		1	<p>LEMON CREEK, EAGLES EDGE SUBD., GULL WAY IMPROVEMENTS - PHASE I - roadway and watermain reconstruction to address deficient drainage, water distribution, and pedestrian facilities. This subdivision was originally constructed with major portions of the watermain located beneath private residences which makes it extremely problematic for the utility to maintain and repair the existing water system and impossible to shut off water service to non-paying customers.</p>
		2	<p>VALLEY, RIVERSIDE DR (ADOT&PF STIP MATCH) - provide CBJ matching funds necessary for ADOT&PF reconstruction of local roadway. The scope of this project is to add sidewalk on both sides of Riverside Dr. between Egan Dr. and Mendenhall Mall Rd. and Vintage Blvd. Widen Riverside Dr. to allow two North bound lanes from Egan to the Mall Rd. Construct channelized right turn from Egan Dr. to Riverside Dr. Rehab roadway surface from Egan Dr. to James Blvd.</p>
		3	<p>AUKE BAY, TANNERS TERRACE LID - initial planning and design to correct drainage, replace watermain, and improve road surface. Residents have expressed interest in participating in an LID to improve drainage and road surfaces in this area. This project is to investigate what would need to be done to collect and control ground water run off and storm water, alignment and improvements to the road surface and how the project could accommodate existing drive ways and parking, and replace troublesome water mains throughout the area. Design and determine a cost estimate to complete all work.</p>
		4	<p>CONTAMINATED SITES REPORTING - funds will be used for soil sampling and reporting at historic sites that may have contamination from leaky fuel or heating oil tanks and other contaminants.</p>
		5	<p>WEST JUNEAU - NORTH DOUGLAS CONNECTION - provide water system and roadway interconnection from Pioneer Ave across Kowee Creek to North Douglas to allow development of a significant number of properties now served by the new N Douglas Sewer Project. Water system connection will provide needed water pressure and flow for development of uphill properties along North Douglas Hwy. Road system connection will provide safe, redundant access highly desired for emergency response and provide alternate access from Cordova St in West Juneau which suffers from steep grades and peak traffic congestion issues.</p>

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
<u>Fire Department</u>		1	GLACIER STATION REPAIRS AND UPGRADES - the Glacier fire station kitchen is original construction. This is the most heavily used room in the station for not only daily meals but staff meetings, training, and is used by the public. The flooring and lighting are in poor shape. The divider walls used to separate the classroom area from the kitchen is in poor shape. Counters and cabinets are showing heavy wear. The gaps in the flooring and counters make it difficult to keep the kitchen clean and sanitary. The classroom wall coverings are detaching, lighting modifications are needed and AV equipment needs updating as this is the largest classroom available to the fire department and is heavily used by the public for meetings and training. No additional operating costs will occur.
		2	COMMUNICATIONS REPLACEMENT - funds will be used to replace the 911 emergency paging systems in the Juneau, Glacier and Auke Bay fire stations. These systems are beginning to have problems and are beyond their service life. One system no longer has parts available. These systems notify responders in the fire stations of an incoming 911 call requiring a response.
		3	MOBILE DATA TERMINALS - funds will be used to install mobile data terminals in the first response fire department apparatus. This would provide dispatch information real time in the responding vehicles and would improve response times, reduce radio traffic to the dispatch center, and provide pre-incident plans and maps in the apparatus.
<u>Lands and Resources</u>		1	SWITZER AREA MUNI LAND DEVELOPMENT - provide preliminary engineering, costs estimates and plans for the development of municipal lands in the Switzer Creek area. Plans will consider the disposal of land for the development of affordable housing.
<u>Library</u>		1	MENDENHALL VALLEY LIBRARY AT DIMOND PARK - construction of new Mendenhall Valley Library branch to replace rented facility in Mendenhall Mall. The Mendenhall Valley Library branch serves the largest population in Juneau and has the heaviest use of any library branch. The physical facilities available in the current mall location do not provide collection space or access to meet the needs of that population or level of use. Rents at the mall location will exceed \$200,000 per year by FY14 and by the end of FY14 will have cost the CBJ in excess of \$6.5 million in 2010 dollars since the library was first located in the mall in 1983. Eliminating the rental expense is expected to produce savings in the annual library operation budget for an owned facility. Construction of a public library branch at the Dimond Park has been designed in the Dimond Park Master Plan since that property was purchased in the 1980's, and the current availability of state reimbursement grants for library construction make this project cost effective.

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
Parks & Rec	Centennial Hall	1	ROOF REPLACEMENT - provide funding for replacement of the roof on Centennial Hall. At 25 years of age, the asphalt roof membrane has surpassed its service life. The goal of this project is to replace the 25-year old roof and also improve the energy efficiency value by adding additional insulation to the roof at the time of replacement.
	Parks/Rec Areas	1	LAST CHANCE BASIN MINING MUSEUM PEDESTRIAN BRIDGE - repair the failing bridge in Last Chance Basin that accesses the mining museum.
		2	JUNEAU-DOUGLAS CITY MUSEUM MECHANICAL & ENERGY EFFICIENCY - replace antiquated heating and air handling equipment.
		3	PARK AND PLAYGROUND REPAIRS & IMPROVEMENTS - this project involves replacement of failing play equipment and retaining walls at Cope Park, and removal of abandoned bathrooms. Timber play equipment at Cope Park is more than 27 years old and has reached the end of its safe and useful lifecycle. Several components have been removed due to safety hazards, and temporary modifications have been made to address strangulation hazards.
		4	AUKE LAKE WAYSIDE DOT/PF MATCH - construct a wayside with picnic shelter, restrooms and interpretive amenities. Provide trailhead parking.
		5	OFF HIGHWAY VEHICLE (OHV) PARK SITE ANALYSIS - perform analysis and find a location for an Off Highway Vehicle (OHV) Park in Juneau.
		6	WATERFRONT SEAWALK - funds will be used to continue the design, examination of right-of-way issues, pedestrian access and safety, and construction of seawalk in accordance with the Waterfront Development Plan. Funding for construction of additional seawalk was a recommendation of the Planning Commission and was one of the top FY11 priorities of the Assembly.
	Trail Maintenance	1	BRIDGET COVE TRAIL - improve CBJ trail that leads to popular DNR cabin. The trail is in poor shape and is poorly marked. Search and rescue and emergency services have been requested from lost and injured hikers. Trail upgrades will improve the walking surface and will properly demarcate the trail.
Police Department		1	CRISES INTERVENTION SPECIALIST - funds will be used to provide for police crises intervention services for one year. The Juneau Police Department has a crisis intervention specialist on staff that works with victims of domestic violence directly after an incident of violence and until safety can be secured and community services are utilized. For the past two years this position has been funded by a federal grant. The source of this grant funding has been eliminated and the position will no longer be funded after June 30, 2012.

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
		2	DISPATCH SOFTWARE - these funds will be used to replace the current outdated dispatch software with an updated system. Acquisition and installation of a new software system would eliminate redundancy, improve accuracy and response times, allow for more detailed documentation, and improve our retention rate for dispatchers.
Public Works	Capital Transit	1	BUS SHELTER IMPROVEMENTS - plan, design, and construct bus shelter repairs and/or replacements on Capital Transit routes. Work is to provide for necessary major maintenance repairs to existing transit shelters to provide safe and protected waiting shelters for transit passengers.
	Streets	1	CONSOLIDATED PUBLIC WORKS FACILITY - SHOP SECURITY - construct retaining walls and perimeter fence for increased security of equipment storage yard.
		2	AREAWIDE DRAINAGE IMPROVEMENTS - multi-year drainage improvements throughout the CBJ.
		3	PAVEMENT MANAGEMENT IMPROVEMENTS - on-going pavement management program to provide chip seal, asphalt overlays/replacements, and other preventative maintenance treatments to CBJ streets. Pavement maintenance is required to extend functional life of road surfaces an additional 5 to 10 years. Programs also provides capital funding to purchase and repair specialized asphalt maintenance equipment and to purchase paving materials (oil, aggregates, chemicals, etc.) for pavement maintenance. Streets tentatively approved for FY13 are Bonnie Doon Street & Weeburn Drive in Bonnie Brae Subdivision; and Malissa Drive, Slim Williams Way, Steelhead Street, Wren Drive, & River Road in the Mendenhall Valley.
		4	AREAWIDE SNOW STORAGE FACILITIES DEVELOPMENT - design, permit, and construct new snow storage facilities in the Mendenhall Valley, Downtown, and Douglas areas within the next 5 years. Due to water quality impacts, the Alaska Department of Environmental Conservation (ADEC) no longer allows snow disposal into water bodies. The new facilities will be designed to collect and treat snow melt in compliance with new Alaska Water Quality Regulations.
		5	DOWNTOWN, PIONEER AVE. PHASE II - continue reconstruction of structurally failing roadway, slope stabilization, base and sub-base replacement, asphalt pavement, storm drainage and water/wastewater utility repairs. Water system improvements include replacement of deteriorated water main, valves, service laterals and other components. Project involves repair and replacement of existing infrastructure within the developed street to minimize future maintenance costs and negative impacts on public resulting from worn pavements and inadequate subdivision storm drainage from the original construction of the street.

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
		6	VALLEY, LAKEWOOD SUBDV IMPROVEMENTS - PHASE II (MEANDER) reconstruct roadway and improve drainage on Meander Way from Northland Dr. to the end. Evaluate street light coverage and possible need for additional lights or moving existing. Roadway base to be excavated and replaced with shot rock to improve drainage under roadway and new asphalt applied.
		7	NORTH DOUGLAS, BAYVIEW SUBDV. - HORIZON DR. - reconstruction failing roadway and watermain. This project scope is the first phase to replacing the failing water main and roadway in the Bayview Subdivision. The existing watermain will be excavated and replaced and sewer main inspected. Roadway subsurface replaced with shot rock to allow better water drainage and new asphalt applied.
		8	CHEMICAL STORAGE SHED - these funds will be used for construction of a chemical storage building. The CBJ has funded the first four phases of a new Public Works Facility in Lemon Creek. The fifth phase requires the construction of a building to house the dry chemicals that are used on the streets in the winter to melt snow and ice.
Wastewater Utility		1	LAWSON CREEK LIFT STATION IMPROVEMENTS (CONSTRUCTION PHASE) - rehabilitate aging (over 30 year old) Lawson Creek Sewage Lift Station to include new wet well, pumps, controls, generator, piping improvements, and related equipment. These improvements are intended to increase the reliability, reduce maintenance and operation costs, and to minimize the risk of system failures and related wastewater compliance violations at this critical pump station.
		2	PUMP & MOTOR REPLACEMENT - multi-year project focusing on replacement and upgrading of worn pumps, motors, and related equipment throughout the wastewater system to reduce energy consumption, improve reliability, and reduce maintenance costs. Proposed improvements will include implementation of variable frequency drives and other technology improvements as appropriate.
		3	SCADA SYSTEM UPGRADES, PHASE II - design, procurement and installation of SCADA control systems in wastewater pump stations and treatment plants areawide. SCADA systems allow the utility to remotely monitor pump station and treatment plant operations allow immediate notification of system failures and maintenance needs. SCADA systems allow more efficient use of manpower and equipment resources, and reduce the risk of property damage and permit compliance violations which may result from delayed response to a system failure.
		4	ENERGY EFFICIENCY AND SECURITY IMPROVEMENTS - a consultant energy audit identified a substantial list of mechanical, electrical, and systematic modifications within the Wastewater Utility that will result in significant reduction in energy use. This capital project will fund those improvements which can repay the initial capital investment within 10 years. Project goal is to make utilities more energy efficient and reduce long term operating costs.

FY 2013 CIP PROJECT DESCRIPTIONS			
<u>Department</u>	<u>Division</u>	<u>Priority</u>	<u>Project Description</u>
	Water Utility	1	JUNEAU DOUGLAS BRIDGE - PIPE EXPANSION JOINTS - the water main in the Juneau Douglas was constructed over 30 years ago and contains two highly critical 14 inch diameter water mains which were constructed with a cable restraint system to prevent pipe separations. In recent years the cable restraints have failed completely and resulted in multiple pipe separations. This project will address this problem by installing a combination of pipe expansion joints, mechanical connectors, and other components to restore the integrity of this important part of the city's water distribution network.
		2	SCADA SYSTEM UPGRADES, PHASE II - this project will continue upgrades to the utility's existing Supervisory Control and Data Acquisition (SCADA) system. Work includes upgrading and/or replacement of out of date program logic control (PLC) panels, computers, control software, environmental sensors, data recorders, emergency backup controls, security systems and other components. The SCADA system is the core of the water infrastructure control and management operations and many of its components are 15 to 20 years old and are no longer supported by their manufacturers. Upgrading the SCADA system is necessary for the utility to continue to provide reliable water pressure and flow demands for domestic and commercial potable water and for fire suppression needs.
Schools		1	SCHOOL DEBT RETIREMENT - early retirement of school project debt is included in the temporary 1% sales tax that is funding projects in FY10 to FY14. Over the course of this sales tax collection, \$4M will be used to reduce this debt.

FINANCIAL SUMMARY OF CURRENT PROJECTS
--

This section of the CIP provides a financial summary for the capital improvements that were active on May 29, 2012. A table is presented showing the project name, budget, commitments, expenditures to date, and the funds available to complete each improvement. This financial information is obtained from LAWSON, CBJ's official accounting system.

CAPITAL IMPROVEMENT PROJECTS
Financial Summary
as of May 29, 2012

Activity	Project Name	Budget	Commitments	Actuals	Funds Available
A50-001	Airport CIP Project Design	\$ 305,331	\$ -	\$ 47,983	\$ 257,348
A50-026	New SRE Building - Design	\$ 888,086	\$ -	\$ 871,684	\$ 16,402
A50-031	Airport Construction Cont. Res	\$ 80,000	\$ -	\$ -	\$ 80,000
A50-033	Airport Revolving Capital Reserve	\$ 51,101	\$ -	\$ -	\$ 51,101
A50-046	Relocate ASOS	\$ 65,000	\$ -	\$ 42,349	\$ 22,651
A50-061	Airport Water/Sewer Extension	\$ 1,107,695	\$ -	\$ 1,075,135	\$ 32,560
A50-068	Part 121 Ramp Recon. Ph I	\$ 2,300,000	\$ -	\$ 1,898,827	\$ 401,173
A50-071	Purchase Land/Airport Expansion	\$ 1,000,000	\$ -	\$ 20,834	\$ 979,166
