## **EOC Highlights**

EOC partway through Operational Period 8 (4/11/2020 – 4/16/2020).

LCCC: The last four positive tests in Juneau have been associated with LCCC, all involving employees of the facility. Today, the EOC (CBJ & BRH) held a conversation with the Department of Corrections and the Department of Health and Social Services, Division of Public Health. Medical staff from BRH and DOC participated on the call. Members of the EOC felt confident that LCCC had clear protocols in place and that they were on top of contact tracing as well as strategies to mitigate impact on the incarcerated population. DPH is closely monitoring 43 individuals associated with the 4 positive cases. Protocols were put into place for better communication between DOC, DPH and the Juneau EOC.

Health Mandate 14: Need to seek clarification about what is required by the mandate. We continue to collect information and will work to resolve any conflicts with our current planning.
