 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 13 (5/14/2020 – 5/28/2020).

Disease Transmission/Contact Tracing:

No new cases identified today. Contact tracing capability at full capacity.

Testing:

PCR testing capacity and supplies remain good for current levels of testing.

Hospital Response:

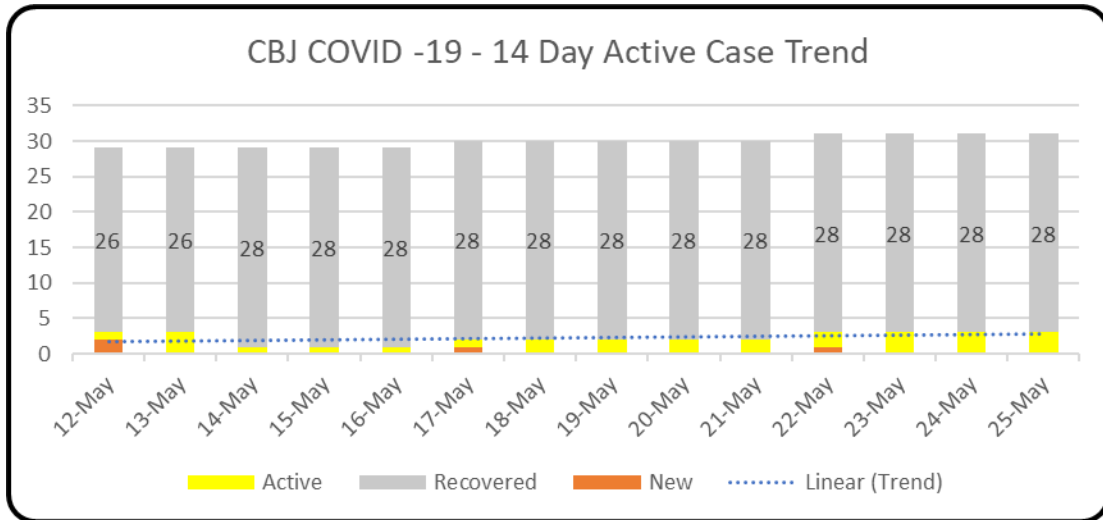

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

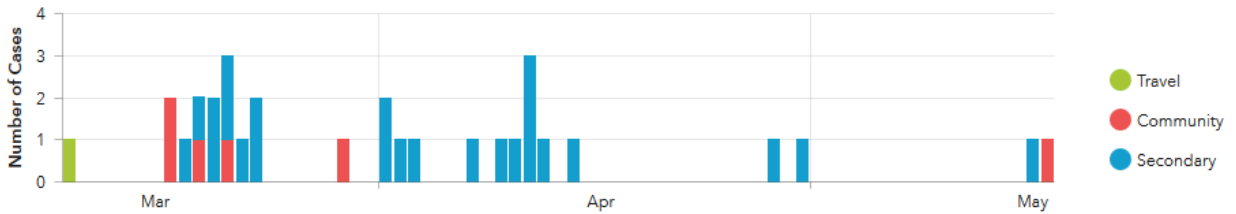

Testing results are coming in slower than expected for the shelter population. About 16 of the 78 have come back as of yesterday, no confirmation today that any of the results came back. So far none positive. The lab in Fairbanks is closed on Sundays which delays results further. They should have run tests today, so we expect to hear more either late tonight or early Tuesday. Centennial Hall will stay stood up and staffed until all results are back.

Numbers changed from yesterday are highlighted.
