# Juneau Unemployment Data – April 2020

Note: This data does not include many sole proprietors who are working to get approved for pandemic unemployment assistance (PUA) – these numbers are expected to increase even further in the coming weeks.

Main sectors of unemployment: Trade (retail/wholesale), Transportation, Healthcare, Foodservice.

1. Which sectors do we expect unemployment to be long term (beyond July 31st federal UI funding)?

2. Which sectors, if any, are growing currently and will need labor?

   a. Seafood Processing?

   b. Elder Care?

   c. Tech?

   d. Local Manufacturing – goods/services for niche markets?

3. What kind of training/education is needed to ready the unemployed labor force to meet the market demand?

4. Can the university system get a boost by providing programs for COVID related training programs to meet demand?

5. Can CARES Act funding be used for these ideas for job creation?
