**Situational Update – Incident Level 2 - Operational Period 14 (5/28/2020 – 6/11/2020).**

Disease Transmission/Contact Tracing:

No new Juneau cases today. One of the last two cases identified was backdated to May 20, 2020. Contact tracing capability remains unconstrained. Statewide, there was an increase of 20 positive cases for Alaska residents. DPH reported that those cases are associated with the Assisted Living center in Anchorage as well as the community gatherings that were referenced at the Sunday night press conference. Cumulatively 22 nonresidents have tested positive.

Testing:

PCR testing capacity and supplies remain good for current levels of testing.

Hospital Response:

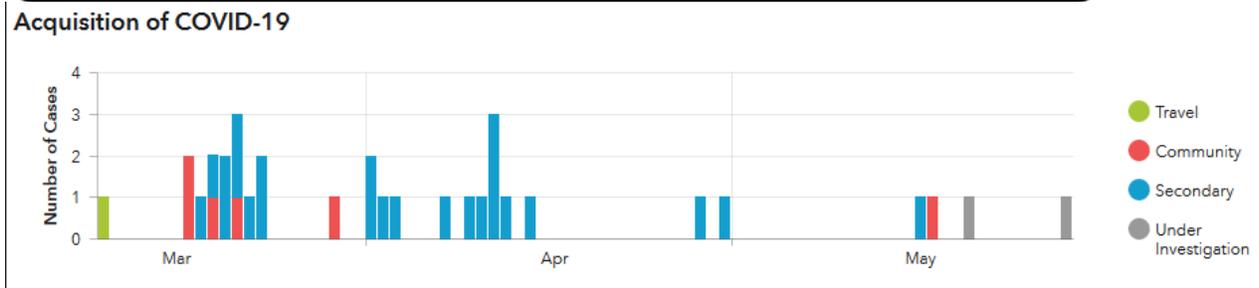

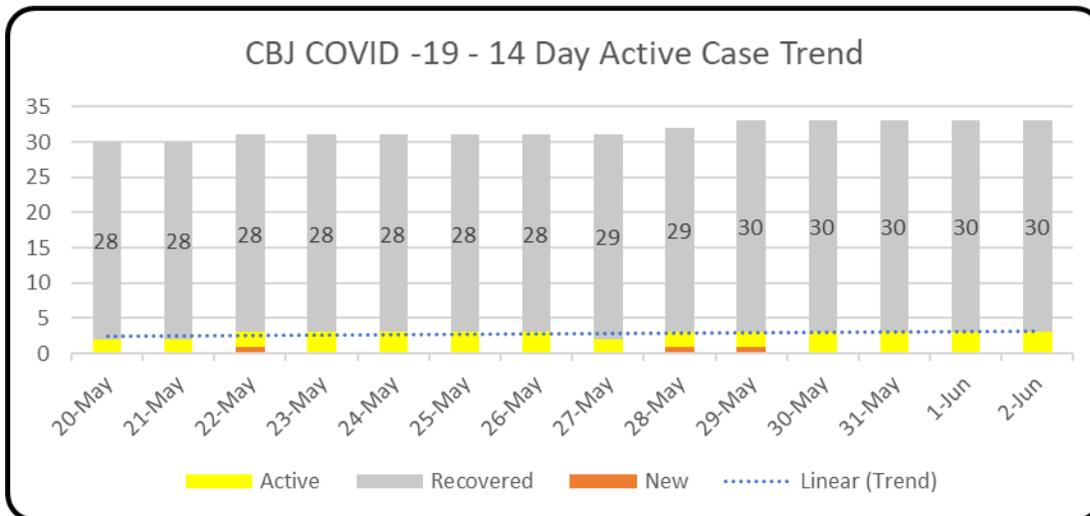

BRH reports adequate supply of PPE and no concerns related to workforce availability.
