 FROM: Mila Cosgrove, Incident Commander
 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 14 (5/28/2020 – 6/11/2020).

Disease Transmission/Contact Tracing:

No new Juneau cases today. Contact tracing capability remains unconstrained. Statewide, there was an increase of 18 positive cases for Alaska residents. Cumulatively 23 nonresidents have tested positive.

Testing:

PCR testing capacity and supplies remain good for current levels of testing. We are working with the state to increase supplies for the new airport testing operations. Statewide test averages are around 2,000 per day.

Hospital Response:

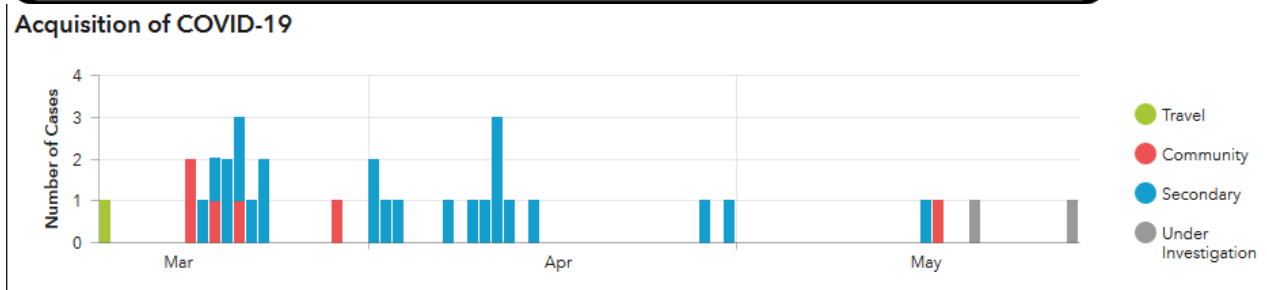

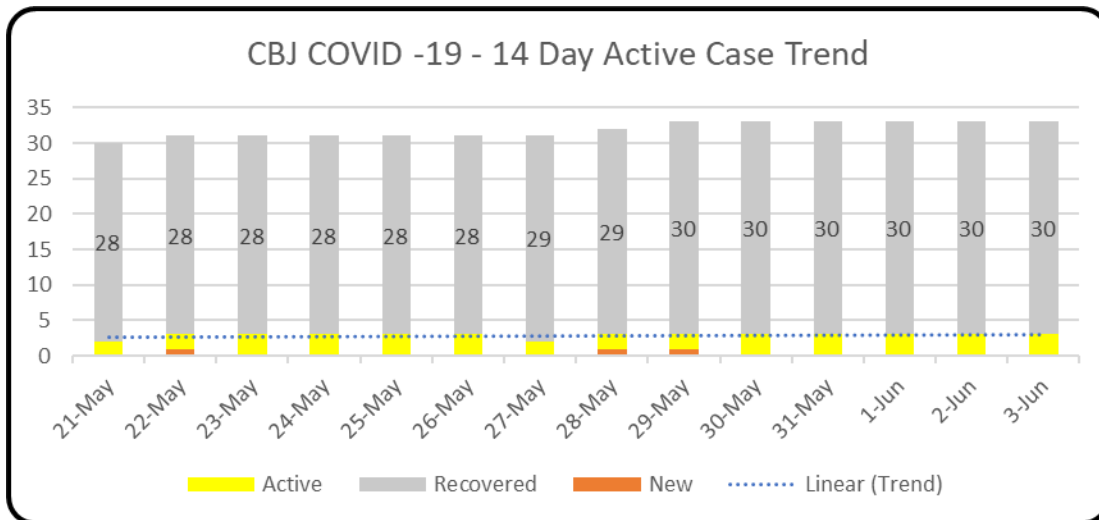

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

We are working with the State on standing up local testing at the airport. Work on standing up local testing continues. BRH changed pre-procedure testing from 48 hours to 72 hours.

Numbers changed from yesterday are highlighted.

Category	Juneau		Statewide
Total Confirmed cases	33		505
Recovered	30		373
Cumulative Tests & % of population tested	2,472	7.73%	58,182
Average # of tests per day over the last 14 days	60.71	Down	
Positive tests over the last 14 days (# and % of positive)	3	0.35%	
DPH PUIs	4		
Hospitalized COVID +	0		47 (Cumulative)
Ventilated Patients	0		
Fatalities	0		10

Positive cases are back dated by the Division of Public Health during their contact tracing phase to the day of onset of COVID-19 symptoms. CBJ & DHSS Dashboards which can be found at: www.Juneau.org/COVID-19
