 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

**Situational Update – Incident Level 2 - Operational Period 14 (5/28/2020 – 6/11/2020).**

Disease Transmission/Contact Tracing:

No new Juneau cases today, but we've added in one additional recovered person leaving us with 2 active cases in the community. Contact tracing capability remains unconstrained. Statewide, there was an increase of 8 positive cases for Alaska residents. Cumulatively 41 nonresidents have tested positive – the increase of 18 cases today were about ½ fishing or ½ other, none in Juneau.

Testing:

PCR testing capacity and supplies remain good for current levels of testing. Statewide test averages are around 2,000 per day.

Hospital Response:

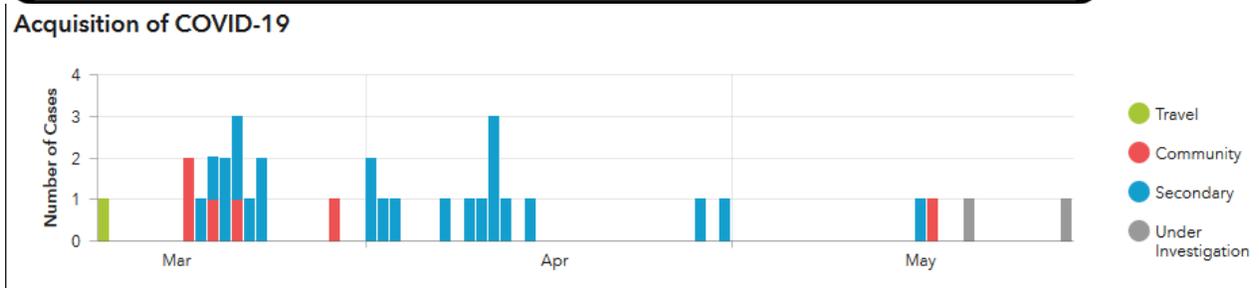

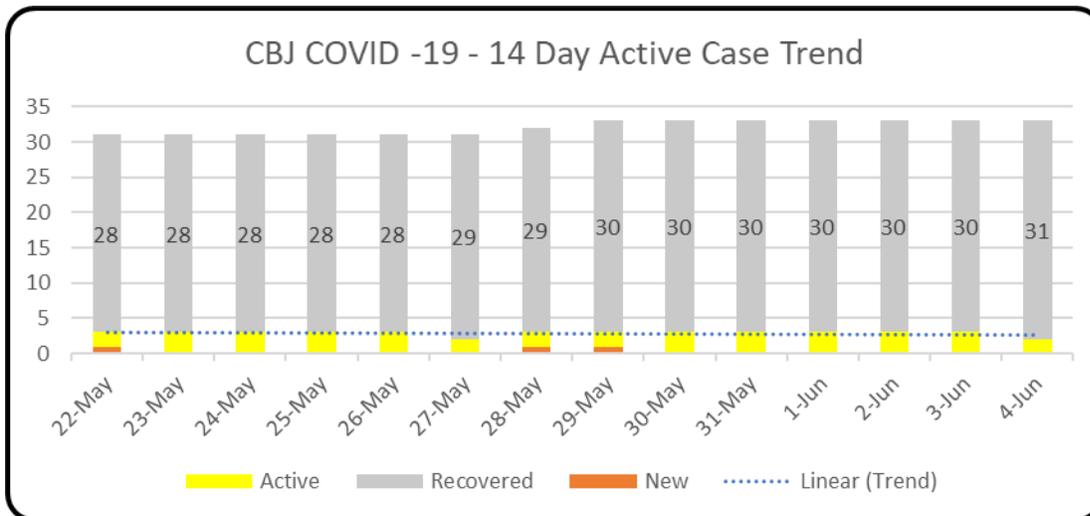

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

We are continuing the standup of local testing at the airport and working on our local communication strategies associated with the revisions.
