 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 14 (5/28/2020 – 6/11/2020).

Disease Transmission/Contact Tracing:

No new Juneau cases today. Contact tracing capability remains unconstrained. Statewide, there was an increase of 12 positive cases for Alaska residents. Cumulatively 45 nonresidents have tested positive – none in Juneau.

Testing:

PCR testing capacity and supplies remain good for current levels of testing. .

Hospital Response:

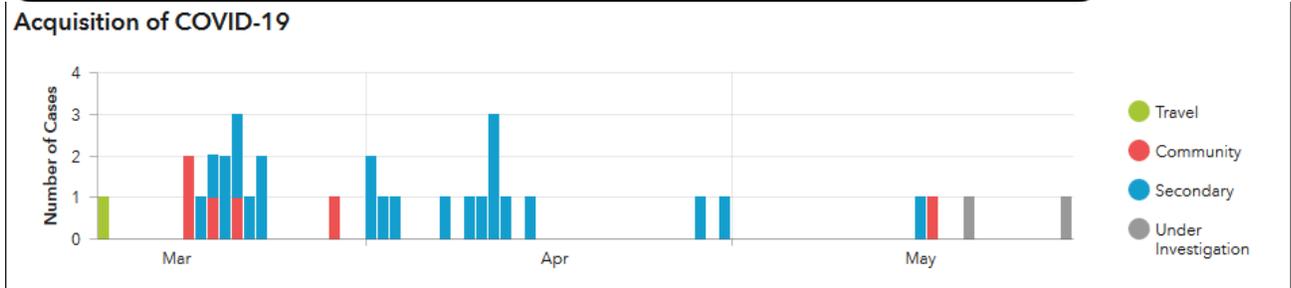

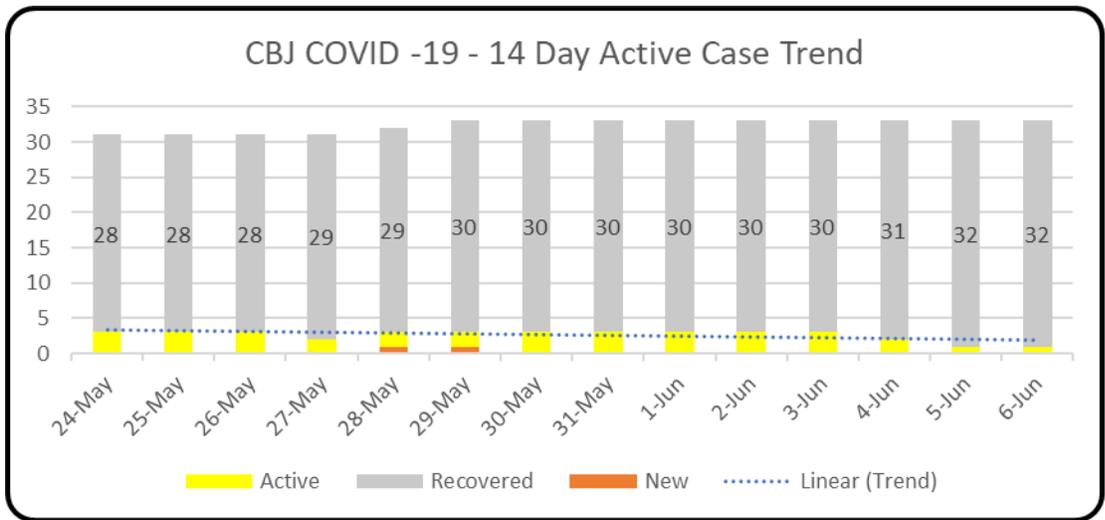

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

Airport testing has gone very well so far. About 50% of the travelers on the morning flights had test performed elsewhere. Alaska Airlines is handing out the travel declarations on the flight greatly enhancing the logistics on the ground. The taskforce reported good compliance and smooth operations.

Numbers changed from yesterday are highlighted.
