Disease Transmission/Contact Tracing:

There is one new Juneau cases today. This case, as well as the one reported over the weekend, are still under investigation as to the cause of transmission. Statewide, there was an increase of 19 positive cases for Alaska residents. Cumulatively 46 nonresidents have tested positive – none in Juneau. Contact tracing capability remains unconstrained.

Testing:

PCR testing capacity and supplies remain good for current levels of testing.

Hospital Response:
