 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 14 (5/28/2020 – 6/11/2020).

Disease Transmission/Contact Tracing:

There were no new cases in Juneau today. Statewide, there was an increase of 20 positive cases for Alaska residents. Cumulatively 51 nonresidents have tested positive –including one traveler coming through the Juneau Airport. Contact tracing capability remains unconstrained.

Testing:

PCR testing capacity and supplies remain good for current levels of testing.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability. BRH is COVID free and returning back to normal activities. BRH expects to restart Rainforest Recovery services in mid July, though there will be reduced capacity to allow for social distancing.

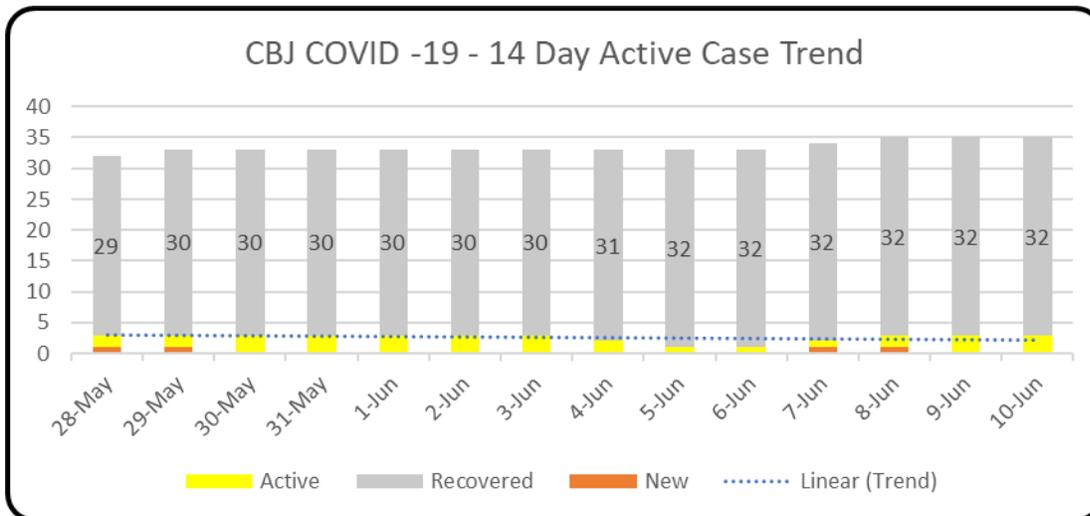

Issues of Note:

The person who tested positive at the airport was tested on Saturday. The person is isolated and DPH continues to work on contact tracing. They are waiting for guidance from the CDC regarding the other passengers on the plane to determine who needs to be followed up with. It should be a very small subsection of the passenger list.

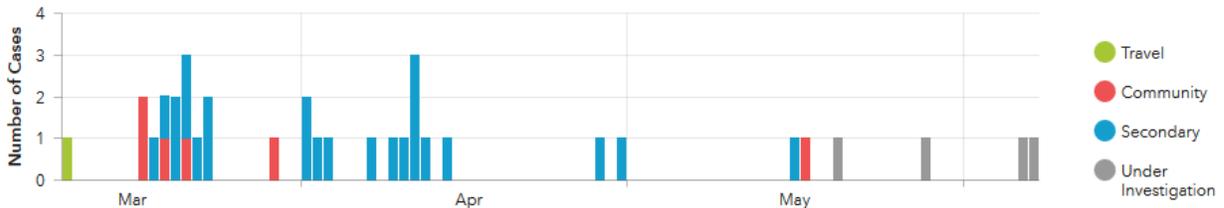

American Cruise Line moved their start date from June 26 to July 23.

Numbers changed from yesterday are highlighted.

Category	Juneau		Statewide
Total Confirmed cases	35		593
Recovered	32		392
Cumulative Tests & % of population tested	2,734	8.55%	67,720
