 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 15 (6/11/2020 – 6/25/2020).

Disease Transmission/Contact Tracing:

There were no new Juneau resident cases today. Statewide, there was an increase of 29 positive cases for Alaska residents. Cumulatively 70 nonresidents have tested positive – including two new cases today associated with Juneau. One of those cases is related to tourism. We do not yet know about the other or whether either was discovered via airport testing. Contact tracing capability remains unconstrained.

Testing:

PCR testing capacity and supplies remain good for current levels of testing.

Hospital Response:

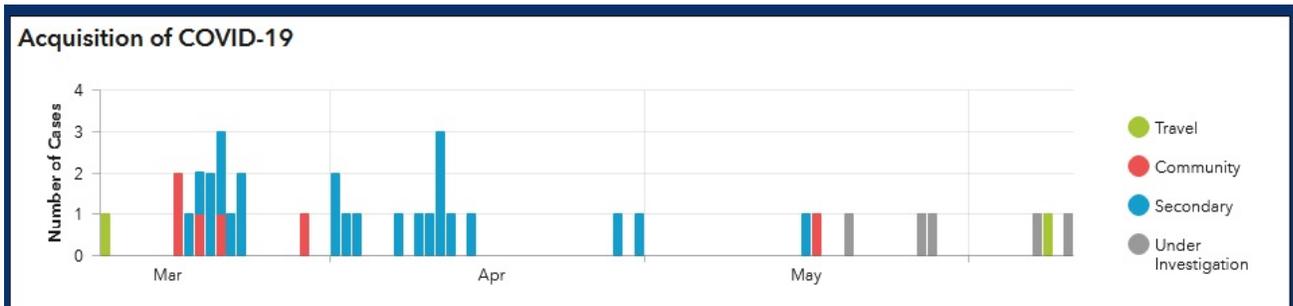

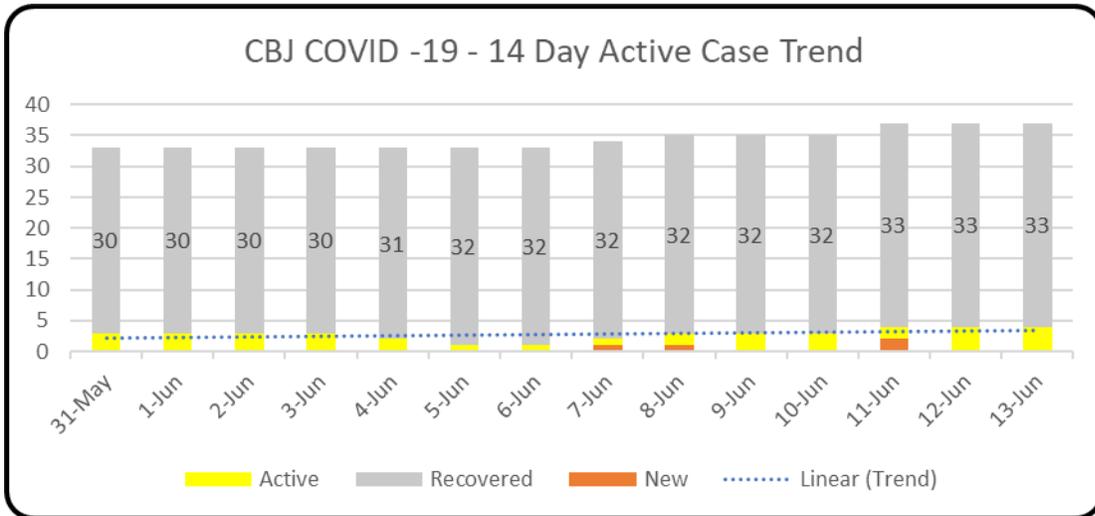

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

Three of the newer cases are still under investigation. Airport operations continue to go smoothly. The 5-day testing average at the airport is 72.8 and fairly stable. We expect this to increase as travel increases and voucher-based testing begins.

Numbers changed from yesterday are highlighted. (DPH doesn't report PUI numbers over the weekend)
