 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 15 (6/11/2020 – 6/25/2020).

Disease Transmission/Contact Tracing:

There were no new cases in Juneau today. Statewide, there was an increase of 3 positive cases for Alaska residents. Cumulatively 76 nonresidents have tested positive –including 3 nonresidents who tested positive in Juneau. We continue to work with the state to try and get more clarity regarding the nonresident travelers. Contact tracing capability remains unconstrained.

Testing:

The state lab is having some issues with personnel and supplies that is causing delays in getting test results. We are experiencing delays in receiving test results by at least an additional day. We continue to explore ways to reduce the turnaround time.

Hospital Response:

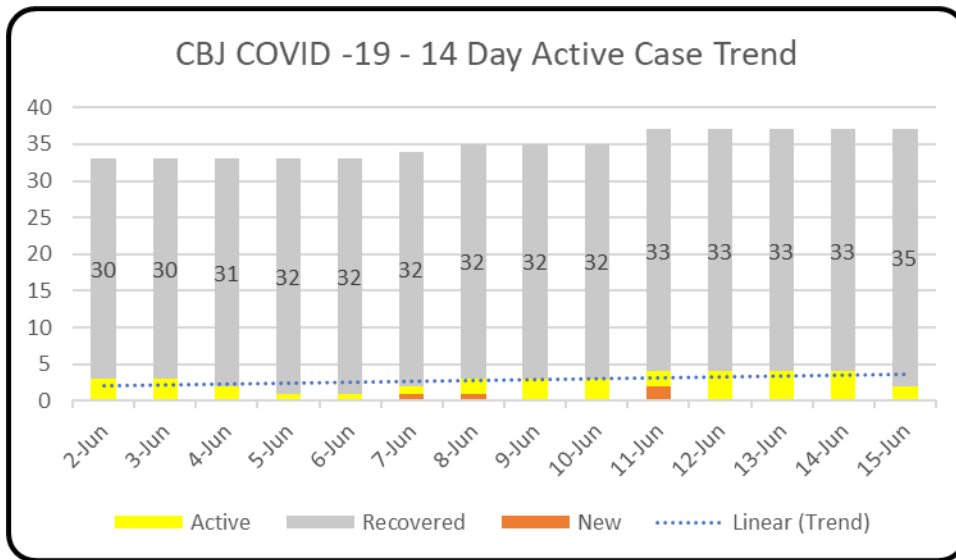

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

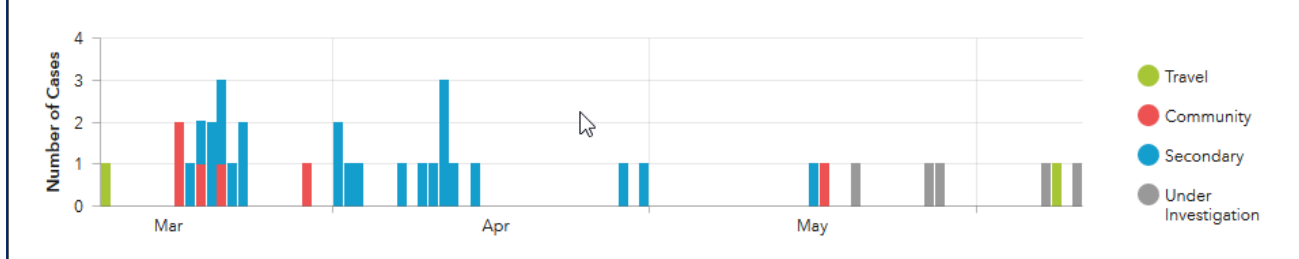

Airport operations are going smoothly. We are starting to report out on the cumulative numbers of nonresidents who test positive. We've also updated our CBJ dashboard to include nonresident positives.

Numbers changed from yesterday are highlighted.
