 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 16 (6/25/2020 – 7/9/2020).

Disease Transmission/Contact Tracing:

There are no new resident or nonresident cases in Juneau today. As of today, there are no confirmed active cases in Juneau, all are listed as recovered. Contact tracing capability remains unconstrained.

Testing:

Staff and supplies are unconstrained.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

The Disease Acquisition graph was updated. Two of the last four cases are designated as community spread, the remaining two were marked travel and secondary transmission. There is one additional case still under investigation.

The Airport testing team received a large batch of airport tests back. We believe the backlog has been worked through and that turnaround times should improve. We continue to watch that and look for ways to improve the turnaround times.

Numbers changed from yesterday are highlighted.
