 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

**Situational Update – Incident Level 2 - Operational Period 16 (6/25/2020 – 7/9/2020).**

Disease Transmission/Contact Tracing:

There are no new cases reported in Juneau today and 38 new cases statewide. There is one new non-resident case today associated with Juneau and 3 non-resident cases statewide. 2 of the three newest cases that have been under investigation have been classified as travel related. The DHSS dashboard has not yet been updated.

Contact tracing capability remains unconstrained.

Testing:

Staff and supplies are unconstrained. There are episodic shortages that are appearing around the country related to reagent. We continue to monitor that as an issue.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability.

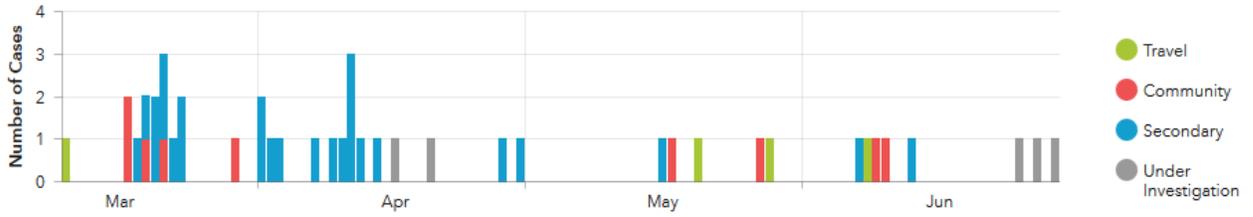

Issues of Note:

We continue to work on local testing options, improvement in the turnaround time of tests sent to outside labs, and contract issues with the SOA for airport testing and with the Armory homeless shelter.

Numbers changed from yesterday are highlighted.
