 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

**Situational Update – Incident Level 2 - Operational Period 16 (6/25/2020 – 7/9/2020).**

Disease Transmission/Contact Tracing:

There are no new cases reported in Juneau today and 39 new cases statewide. There are 11 new non-resident cases statewide, none in Juneau. That case is reflected in the chart below.

There is a significant amount of case climb in other parts of the state – particularly Anchorage, Fairbanks and Kenai. Contact tracing capability remains unconstrained.

Testing:

Staff and supplies are unconstrained. There are episodic shortages that are appearing around the country related to reagent. We continue to monitor that as an issue.

Hospital Response:

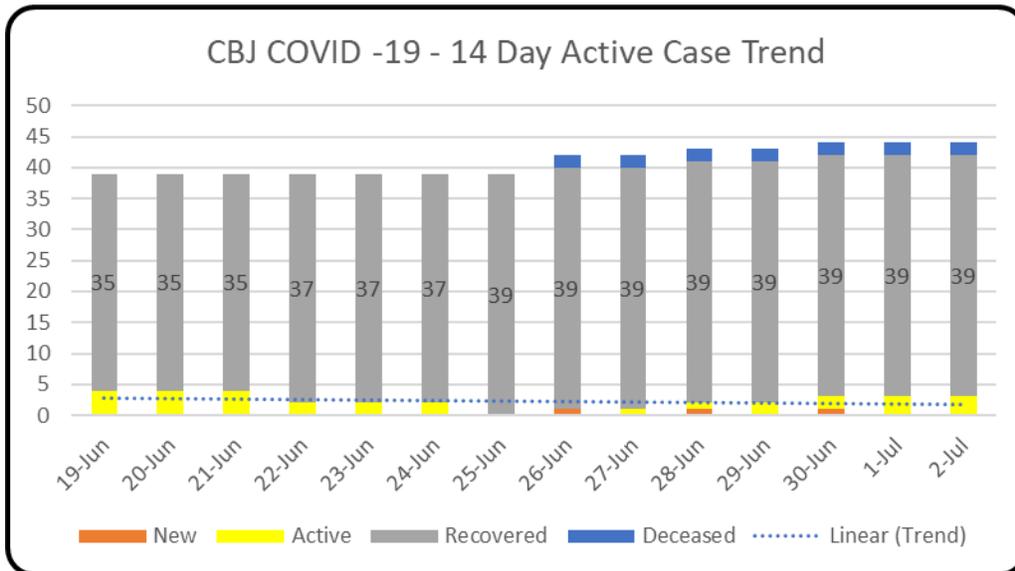

BRH reports adequate supply of PPE and no concerns related to workforce availability.

Issues of Note:

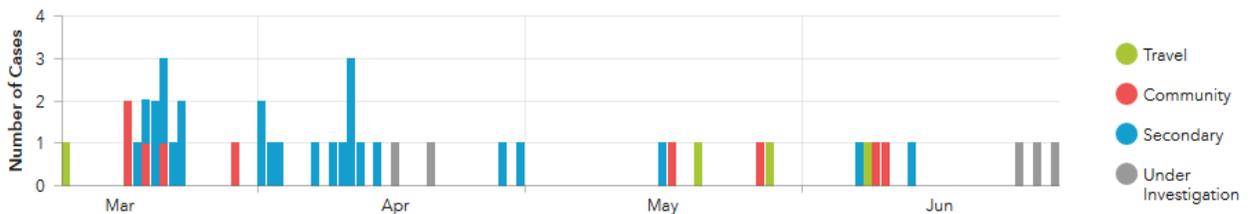

With the beginning of the school year approaching, school health staff will be returning to the district. We are reviewing call center operations and determining how best to move forward with staffing. We do believe the call center continues to play an important role in disease management. The number of interstate travelers continues to grow.

Numbers changed from yesterday are highlighted.
