 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 17 (7/9/2020 – 7/23/2020).

Disease Transmission/Contact Tracing:

There is one new resident case reported in Juneau today and 40 new cases statewide. There are additionally 14 new statewide non-resident cases, none in Juneau. Of the most recent 8 cases not yet identified by acquisition type on the State dashboard, 3 are secondary and 5 are community spread.

Based on the circumstances of some of our recent cases, we expect an uptick in cases in the coming days. All of the known individuals associated with those cases have been contacted and advised to quarantine or isolate. We expect there are some unknowns.

Contact tracing continues to be strained statewide, even with the new hires.

Testing:

Staff and collection supplies are unconstrained. Recent test turnaround times have been between 3 and 4 days.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability.

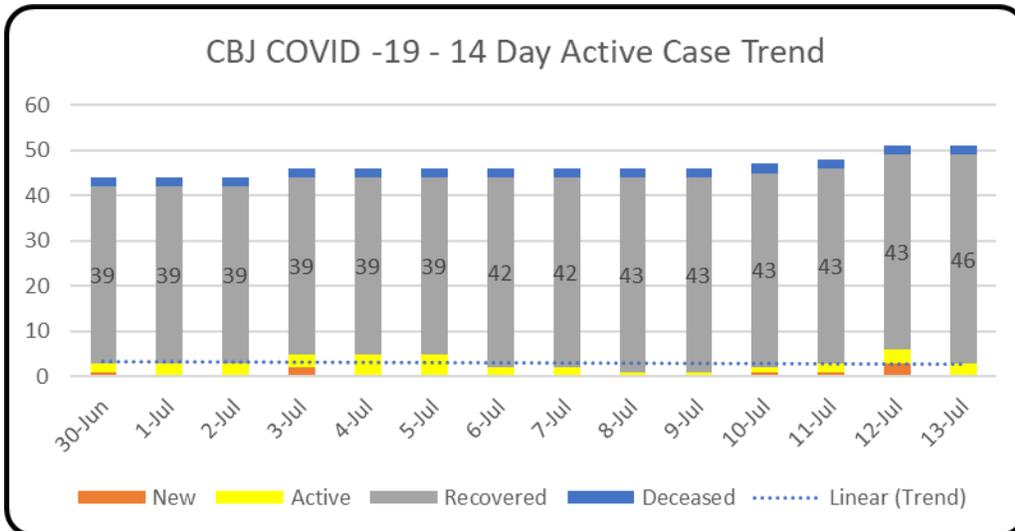

Issues of Note:

The EOC focus for today was on public communication, local testing, and continuing to plan for the COVID-19 Hotline transition.

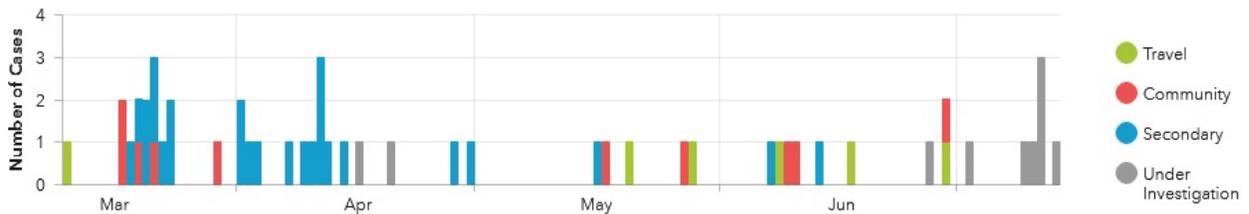

Numbers changed from yesterday are highlighted.

| Category | Juneau | | Statewide |
|---|--------|-------|------------------|
| Total Confirmed resident cases | 52 | | 1,579 (40+) |
| Recovered/Active resident | 47 | 3 | 642 (22+) |
| Cumulative Tests & % of population tested | 5,506 | 17% | 149,473 (2,883+) |
| Average # of tests per day over the last 14 days | 98.71 | Down | |
| Positive tests over the last 14 days (# and % of positive) | 7 | 0.51% | |
| DPH PUIs | 37 | Down | |
| Nonresident (Total positive/recovered or no longer in Juneau) | 6 | 6 | 320 (14+) |
| Hospitalized COVID + (current) | 0 | | 25 (3+) |

| | | |
|---------------------|---|----|
| Ventilated Patients | 1 | |
| Fatalities | 2 | 17 |

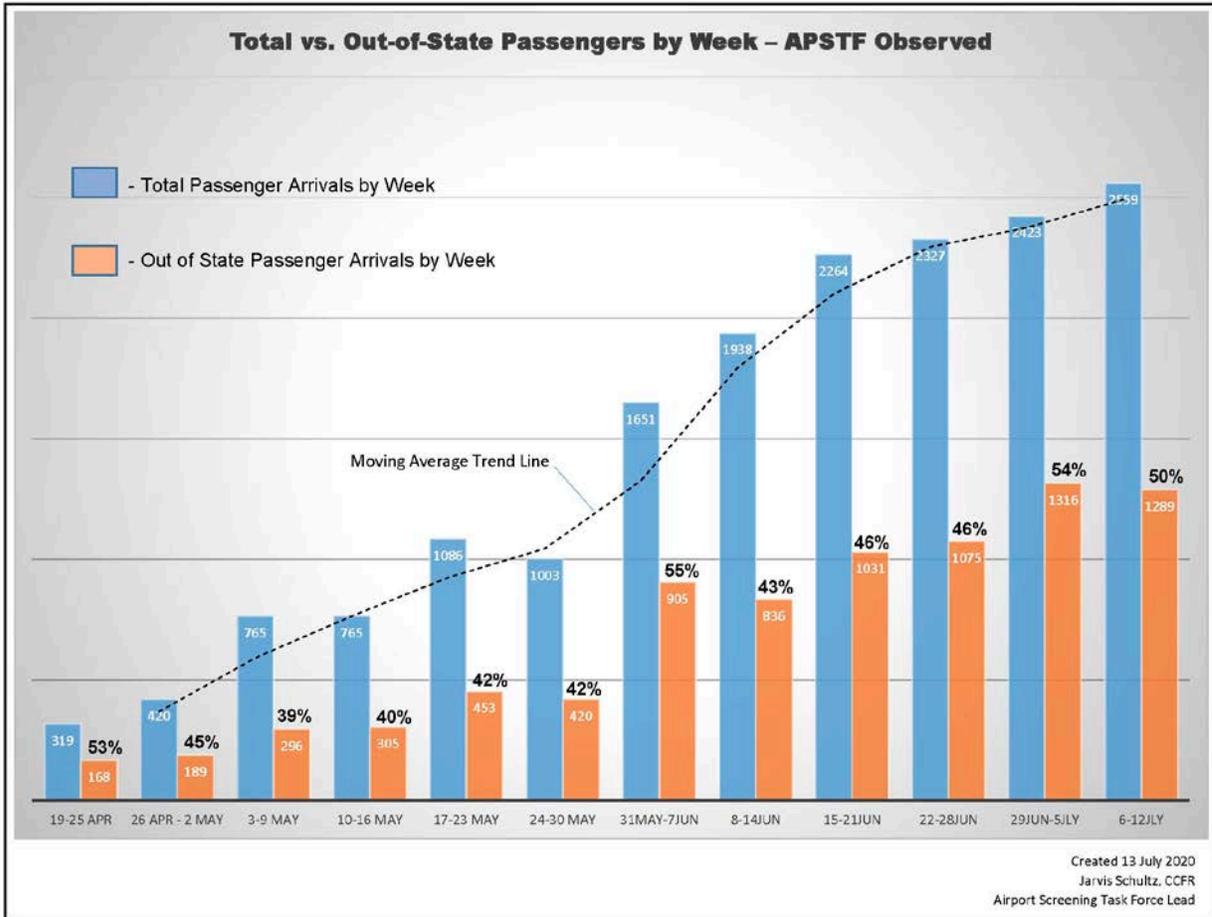

Acquisition of COVID-19

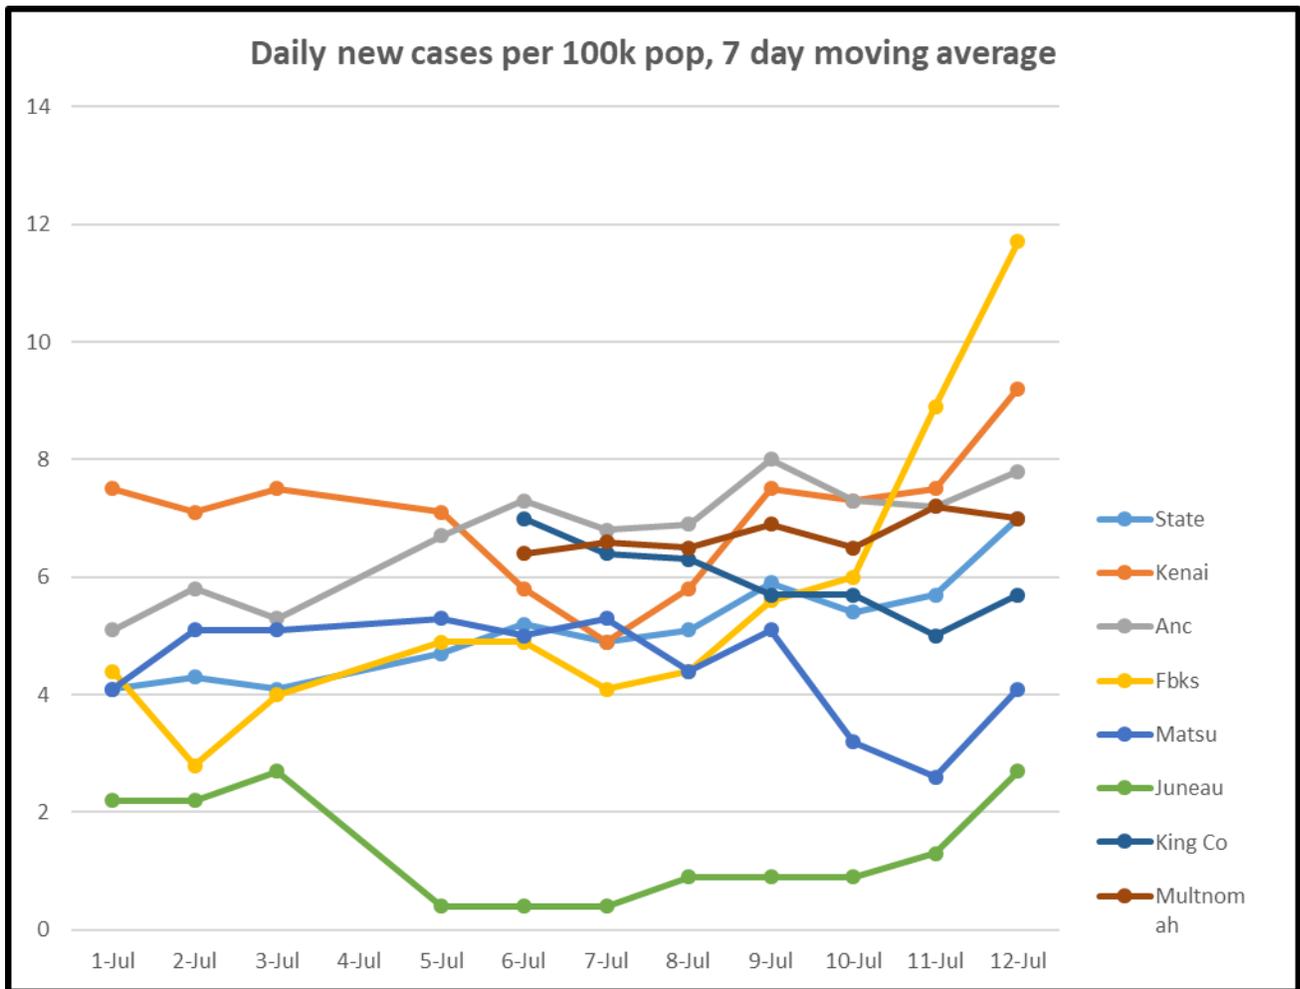

Positive cases are back dated by the Division of Public Health during their contact tracing phase to the day of onset of COVID-19 symptoms. CBJ & DHSS Dashboards which can be found at: www.Juneau.org/COVID-19.

Tuesday Focus – Travel

All cruise ships have cancelled their seasons except UnCruise (cancelled through 8/1) and Lindblad (cancelled through 8/15).

This graph tracks the number of new cases in the past 7 days, controlled for population. Other than Alaskan boroughs, King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency.

The source data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and is generally updated every other day. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website.

Today the State started populating this same data on their dashboard. We plan to monitor that for a few days and, if the information aligns and stays current, discontinue this graph in favor of the State data.
