 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

Situational Update – Incident Level 2 - Operational Period 18 (7/23/2020 – 8/6/2020).

Disease Transmission/Contact Tracing:

The state is reporting 59 new statewide resident cases and 7 new statewide non-resident cases. Within these numbers, 2 resident and no non-resident are attributed to Juneau. The EOC numbers in the table below don't match the state reported numbers today – the EOC has access to more timely data and our numbers continue to reflect that information.

Contact tracing continues to be strained statewide. DPH reported that they are following 49 individuals locally. This includes all contacts as a result of the AGS cluster.

Testing:

Staff and collection supplies are unconstrained. CBJ Testing operations is reporting the significant majority of tests yesterday were from July 20th, with the spread being as little as 4 days and as much as 9 days. We do not have access to turnaround times from private providers. Test results from the most recent round of AGS testing are expected over the weekend.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability.

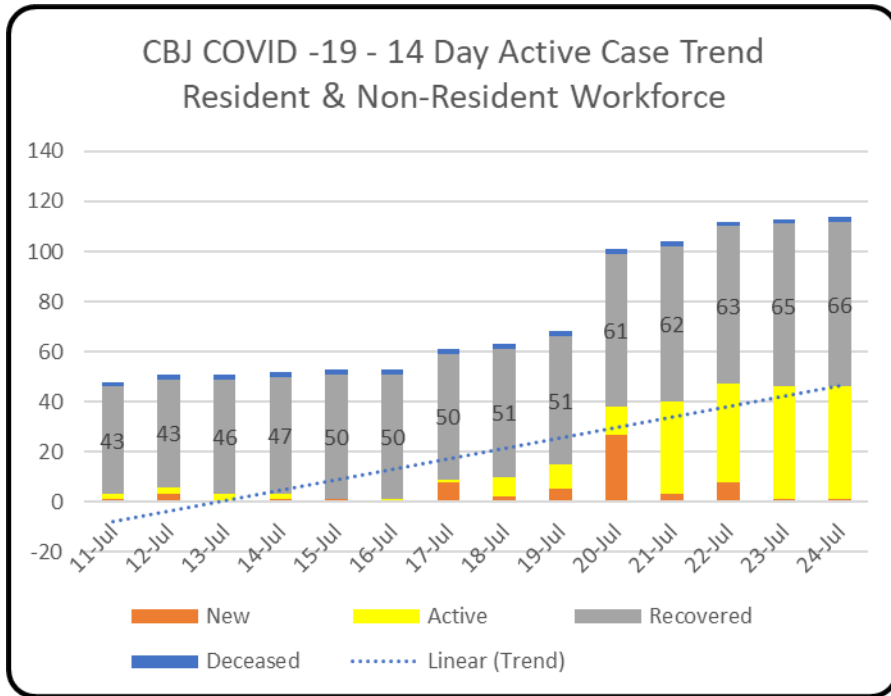

Issues of Note:

We continue to get general questions about masking and are working through related issues as they arise. We continue to work with AGS in helping them manage issues associated with their workplace cluster.

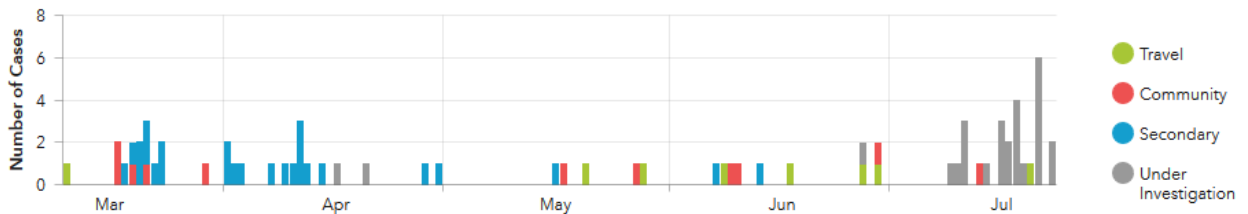

Numbers changed from yesterday are highlighted.

Category	Juneau		Statewide
Total Confirmed resident cases	74	+1	2,249 (+59)
Recovered/Active resident	55	17	800 (+2)
Total Confirmed nonresident cases	40	-	499 (+7)
Recovered/Active nonresident cases	11	29	
DPH PUIs	49	Up	
Cumulative Tests & % of population tested	6,545 (146+)	20%	200,572 (+11,063)
Average # of tests per day over the last 14 days	86.14	Up	

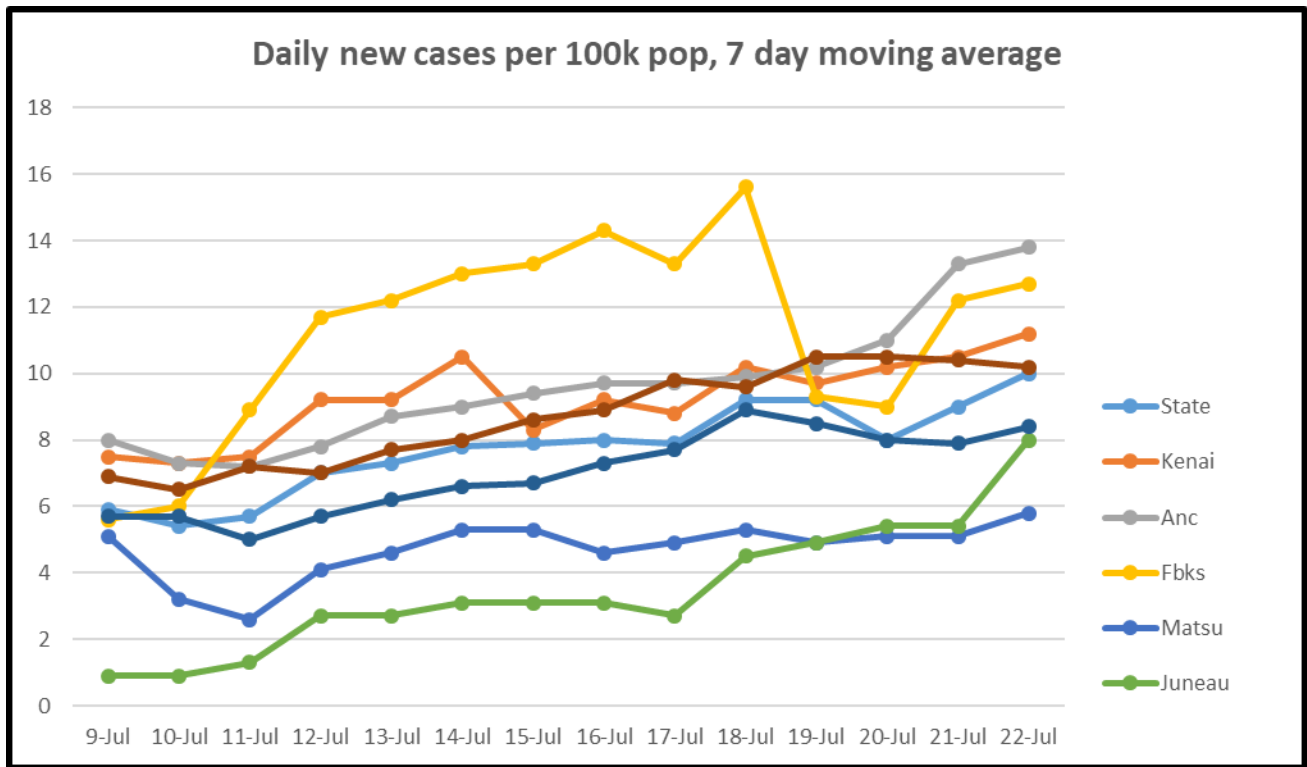

Positive tests over the last 14 days (# and % of positive)	58	4.81%	
Average test turnaround time for CBJ testing operations/range	4 days	4-9 days	
Hospitalized COVID + and PUI (current)	1	(-)	37 (+1)
Ventilated Patients	0		
Resident Fatalities	2		19 (-)

Acquisition of COVID-19

Positive cases are back dated by the Division of Public Health during their contact tracing phase to the day of onset of COVID-19 symptoms. This graph includes resident cases only. CBJ & DHSS Dashboards which can be found at: www.Juneau.org/COVID-19.

This chart tracks the number of new cases in the past 7 days, controlled for population. Other than Alaskan boroughs, King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency.

The source data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and is generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website.

Friday Focus: Finances
