 FROM: Mila Cosgrove, Incident Commander  
 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

**Situational Update – Incident Level 2 - Operational Period 18 (7/23/2020 – 8/6/2020).**

Disease Transmission/Contact Tracing:

The state is reporting 98 new statewide resident cases and 6 new statewide non-resident cases. Within these numbers, 3 resident and no non-resident cases are attributed to Juneau. The EOC numbers in the table below are still above those in the state dashboard due to conversations with DPH.

We have a small charter boat with 8 people aboard moored in one of our harbors that has 2 positive nonresidents aboard. The passengers were picked up in another SE community and learned of their COVID status after they set sail. The EOC is monitoring their situation and providing support as needed while they wait out their isolation period.

Contact tracing continues to be strained statewide. They are working on hiring and onboard new staff.

Testing:

Staff and collection supplies are unconstrained. The state did not update their testing dashboards today.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability.

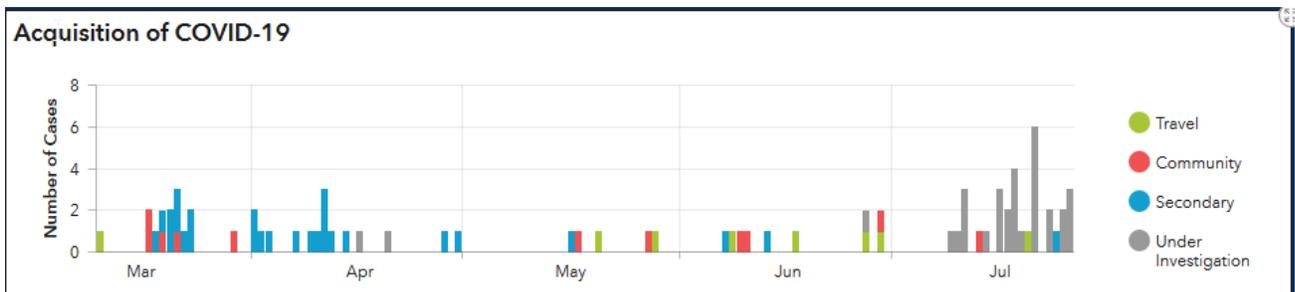

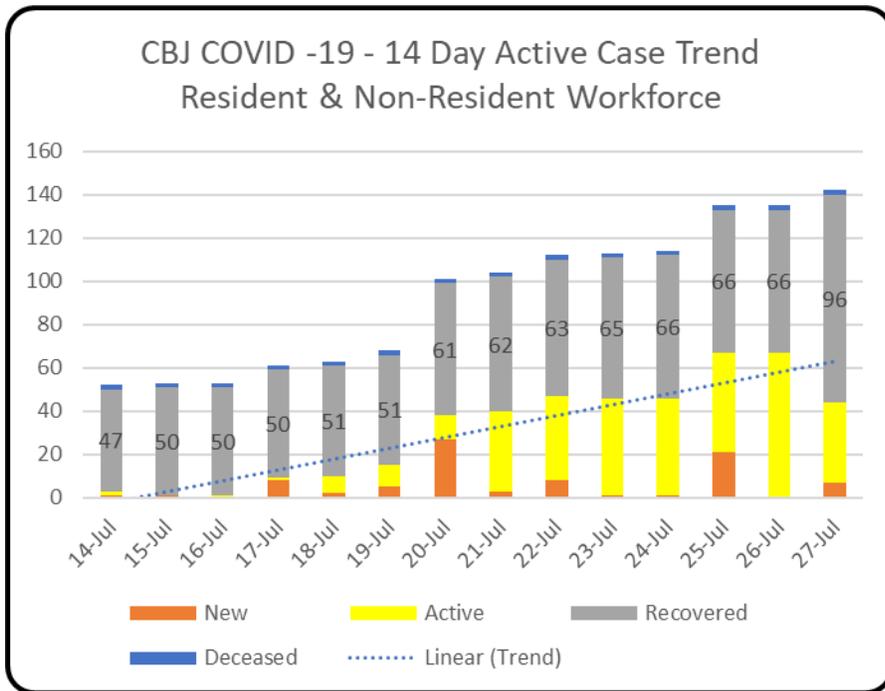

Issues of Note:

The EOC continues to monitor the AGS situation as well as test turnaround times. We are closely monitoring the increase of cases not associated with AGS and working with DPH to identify any trends that might exist.

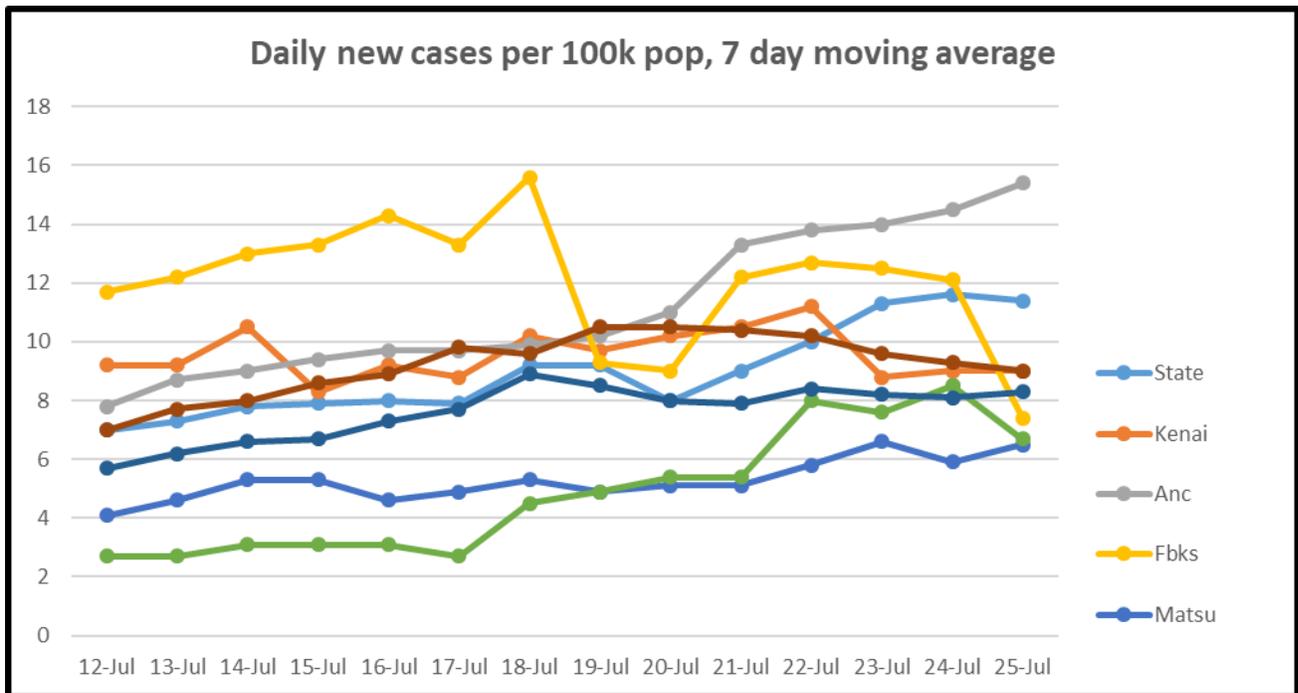

Numbers changed from yesterday are highlighted. Testing numbers were not updated by the state today so the numbers below reflect Sunday's report.

Category	Juneau		Statewide
Total Confirmed resident cases	82	(+5)	2,622 (+98)
Recovered/Active resident	67	13	817 (-)
Total Confirmed nonresident cases	60	(+2)	584 (+6)
Recovered/Active nonresident cases	29	31	
DPH PUIs	49		
Cumulative Tests & % of resident population tested	6,667 (+10)	21%	207,264 (+2,198)

Average # of resident tests per day over the last 14 days	89.21	Down	
Total positive tests over the last 14 days	82	Up	
Average test turnaround time for CBJ testing operations/range	3-4 days	3 – 8 days	
Hospitalized COVID + and PUI (current)	1	(-)	35 (+5)
Ventilated Patients	0		
Resident Fatalities	2		21 (+1)

Positive cases are back dated by the Division of Public Health during their contact tracing phase to the day of onset of COVID-19 symptoms. This graph includes resident cases only. CBJ & DHSS Dashboards can be found at: [www.Juneau.org/COVID-19](http://www.Juneau.org/COVID-19).

This chart tracks the number of new cases in the past 7 days, controlled for population. Other than Alaskan boroughs, King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency.

The source data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and is generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website.
