DATE: August 2, 2020  
 TO: CBJ Assembly  
 FROM: Mila Cosgrove, Incident Commander  
 RE: City & Borough of Juneau COVID-19 Response – Emergency Operations Center Update

**Situational Update – Incident Level 2 - Operational Period 18 (7/23/2020 – 8/6/2020).**

Disease Transmission/Contact Tracing:

The state is reporting 145 new statewide resident cases and 13 new statewide non-resident cases. Within these numbers, 1 resident and 0 non-resident cases are attributed to Juneau.

The CBJ EOC numbers differ from the state dashboard due to more timely reporting. Locally, we are reporting 0 resident and 0 nonresident cases.

DPH reports they are tracking 22 PUIs. AGS continues to monitor 36 employees as close contacts.

Testing:

Staff and collection supplies have episodic interruptions, but test results continue to come in generally in the 3 – 6 day range. 176 test results were received yesterday, with tests originally collected on July 29<sup>th</sup> and 30<sup>th</sup>. This represents a 2 – 3 day turnaround time.

Hospital Response:

BRH reports adequate supply of PPE and no concerns related to workforce availability.

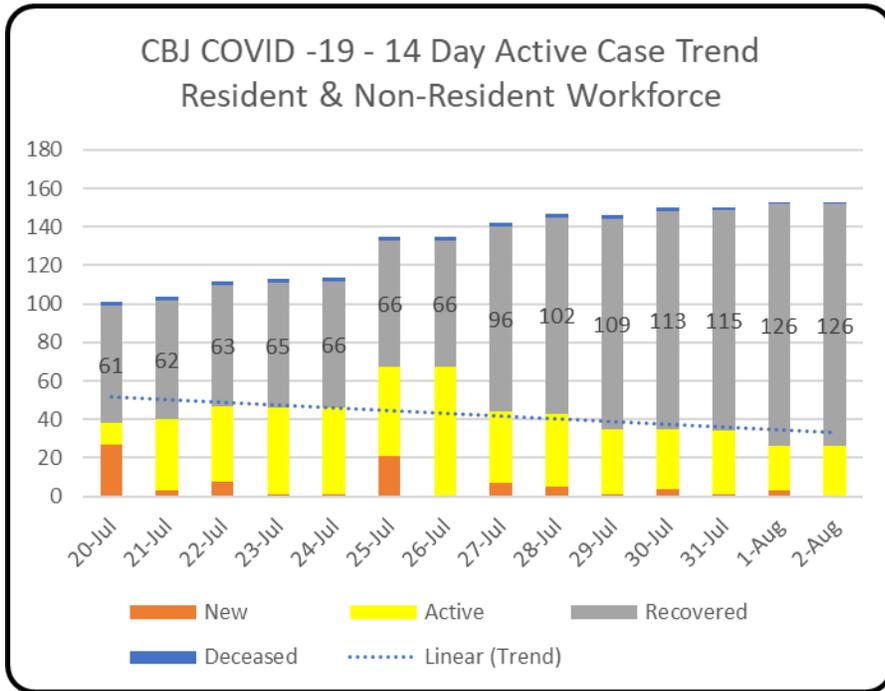

Issues of Note:

The EOC is working on updated risk matrix, dashboard, and community impact. Results of that work will be provided to the Assembly at the 8/3/2020 meeting during a scheduled staff report at the end of the meeting.

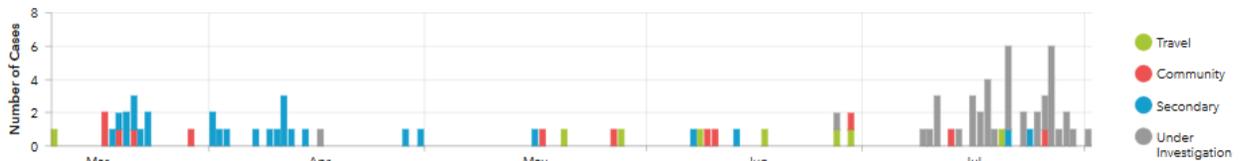

Numbers changed from yesterday are highlighted. DPH did not update numbers today.

Category	Juneau		Statewide
Total Confirmed resident cases	89	(-)	3,280 (+145)
Recovered/Active resident	82	6	932 (+2)
Total Confirmed nonresident cases	64	(-)	704 (+13)
Recovered/Active nonresident cases	44	20	
DPH PUIs	22		
Cumulative Tests & % of resident population tested	7,670 (+236)	24%	243,090 (+4,457)
Average # of resident tests per day over the last 14 days	112.21	Up	

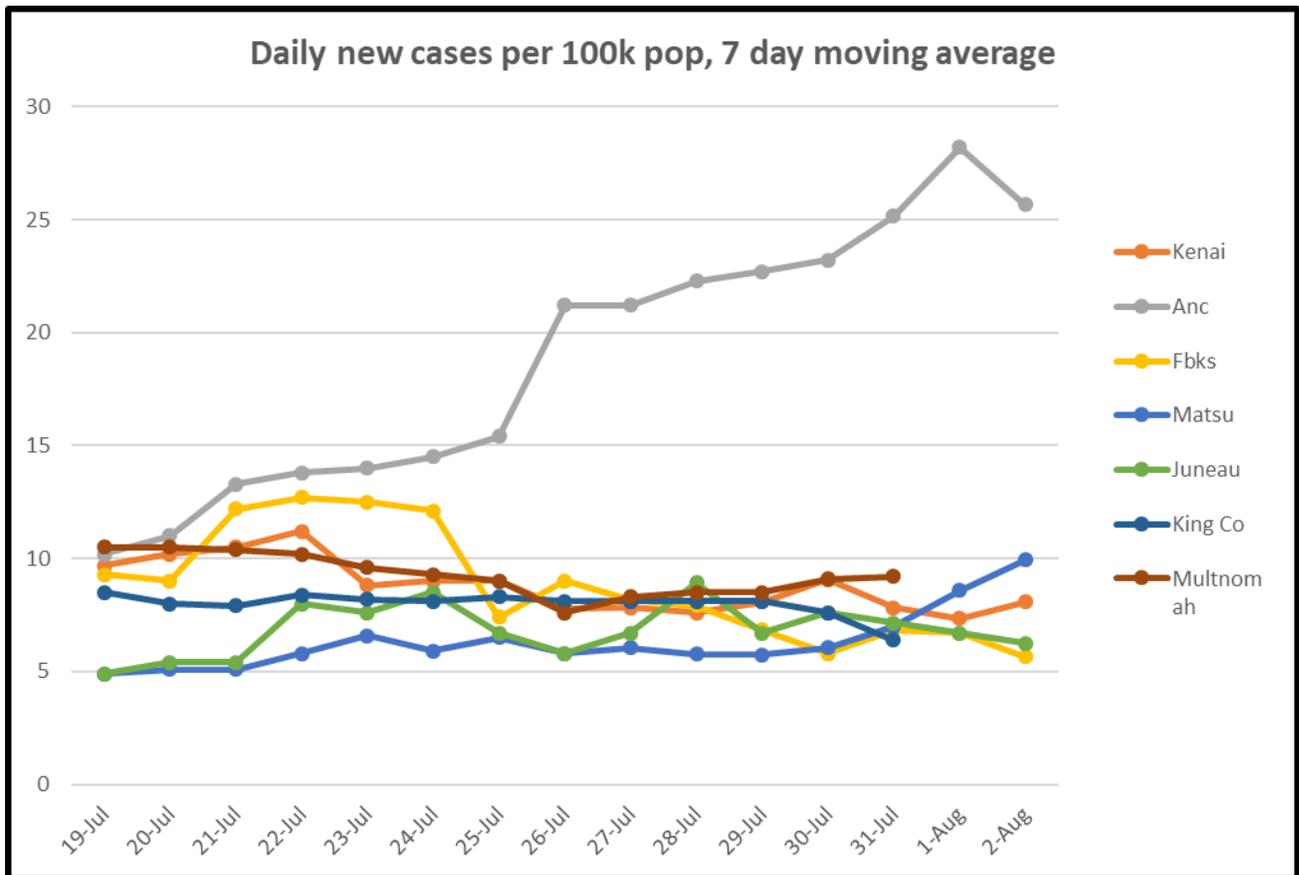

Total positive tests over the last 14 days	80	Down	
Average test turnaround time for CBJ testing operations/range	2.5	2-3 days	
Hospitalized COVID + and PUI (current)	0	1	27 (+4)
Ventilated Patients	0		
Resident Fatalities	1		24 (-)

Acquisition of COVID-19

Positive cases are back dated by the Division of Public Health during their contact tracing phase to the day of onset of COVID-19 symptoms. This graph includes resident cases only. CBJ & DHSS Dashboards can be found at: [www.Juneau.org/COVID-19](http://www.Juneau.org/COVID-19).

This chart tracks the number of new cases in the past 7 days, controlled for population. Other than Alaskan boroughs, King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency.

The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and is generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website.
