DATE: February 23, 2021
 TO: CBJ Assembly
 FROM: Mila Cosgrove, Incident Commander
 RE: **Situational Update –Level 1 Minimal-** Operational Period 29 (1/28/2021 – 2/25/2021)

Overall Community Risk	Disease Situation	Hospital Capacity	Public Health Capacity
Level 1 - Minimal	Overall cases have dropped. Some community spread is present.	The hospital case load is stable.	Contact tracing is stable.

The Complete CBJ COVID-19 Dashboard can be found [here](#) or by going to [Juneau.org/ COVID-19](http://Juneau.org/COVID-19)

Situation Assessment: Our 14 day case rate indicator is at the moderate alert level and our 7 day case rate indicator has climbed to the high alert level - primarily due to secondary transmission among large family groups. The community continues to see COVID transmit via community spread, secondary infection, and travel. The more aggressive strain of COVID-19 has been identified in Alaska. We caution the public to strictly adhere to all travel related rules and to continue strict adherence to masking and social distancing when outside your immediate home.

Issues of Note:

Vaccine updates: 28.7% of the Juneau population age 16 and above have been vaccinated with 18.8% of the population having received their 2nd dose. The State is reporting that 77.7% of the population in Juneau age 65+ have received at least the first dose of vaccine.

POD 2b will happen on March 4 and 5. This is the second dose clinic for those individuals who received their first dose on February 11 and 12.

POD 3a will be on Friday March 12, noon to 7pm and Saturday March 13, 9am to 4pm. Appointments will open on Thursday, February 25, at noon. Clinic registration will be open for anyone 65 years of age or older on Wednesday from 8:00am to 5:00pm through the call center only. The Clinic is open to anyone who is 65+ years of age as well as health care workers, those 50+ with a chronic health condition, those 50+ and an essential frontline worker, those living and working in congregate settings. Detailed information about vaccine eligibility can be found [here](#).

We anticipate the March community vaccine allocation should be between 3500 – 4000 doses.

Daily Numbers Report:

We are reporting no new cases today.

COVID-19 In Juneau				
	Active	Recovered	Deceased	Cumulative
Resident	23	1,109	5	1,137
Nonresident	1	140	0	141
Total	24	1,249	5	1,278

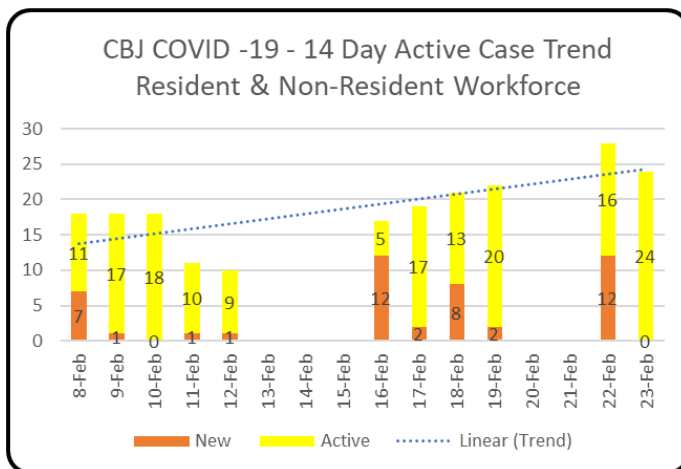

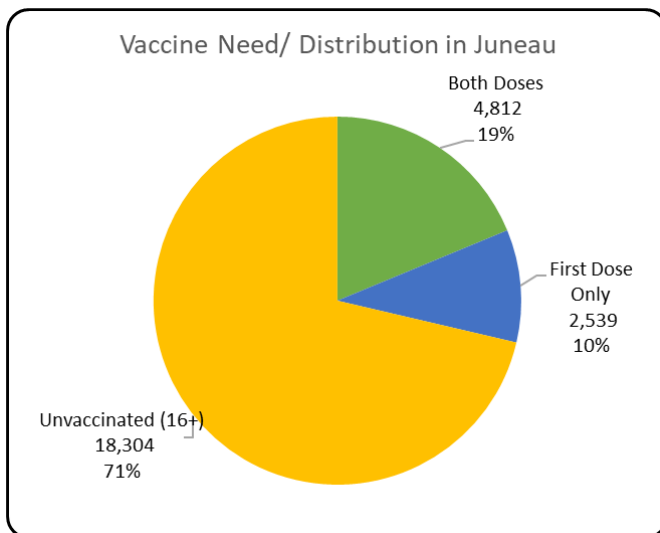

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard.

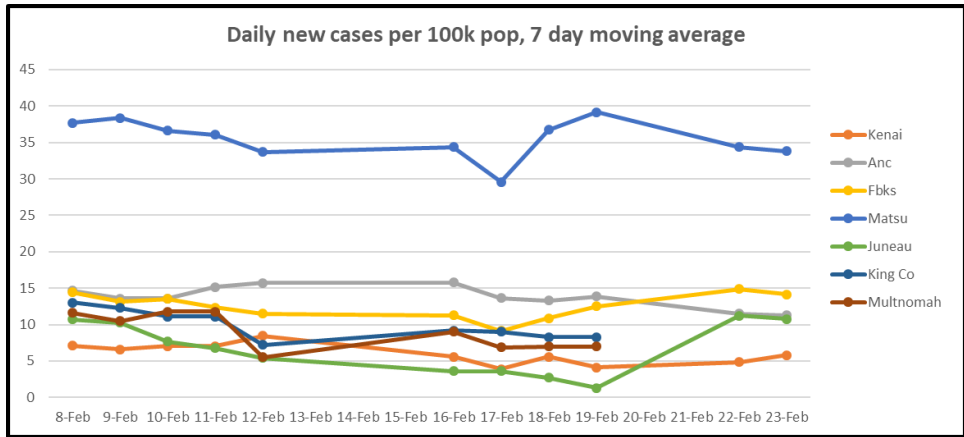

Disease Transmission/Contact Tracing:

We are reporting no new resident cases and no new nonresident cases today.

The State is reporting 58 new cases today bringing the statewide cumulative total to 57,808 cases.

Testing: 2/22/21:20 test results were received from the Fulgent Lab with collection dates between 02/20/2021 – 02/21/2021 – 5 tests returned in 1 day and 15 tests returned in 2 days.

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website
