 TO: CBJ Assembly
 FROM: Mila Cosgrove, Incident Commander
 RE: **Situational Update –Level 1 Minimal-** Operational Period 30 (2/25/2021 – 3/25/21)

Overall Community Risk	Disease Situation	Hospital Capacity	Public Health Capacity
Level 1 - Minimal	Overall cases have dropped. Some community spread is present. Availability of the COVID vaccine is increasing.	The hospital case load is stable.	Contact tracing is stable.

The Complete CBJ COVID-19 Dashboard can be found [here](#) or by going to [Juneau.org/ COVID-19](http://Juneau.org/COVID-19)

Situation Assessment: Our 14 day indicator is at the low level and the 7 day case rate indicator is at the moderate alert level. The community continues to see COVID transmit via community spread, secondary infection, and travel. COVID vaccine distribution is on the rise, which should begin to offer the community some level of protection. The more aggressive variants of COVID-19 have been identified in Alaska. We continue to caution the public to strictly adhere to all travel related rules and to continue strict adherence to masking and social distancing when outside your immediate home.

Issues of Note:

CBJ will be hosting a Community Forum on Vaccines on Wednesday, March 24th at 5:00 pm. Dr. Zink, Dr. Urata, Ali Gottschlich (DPH), Charlee Gribbon (BRH), and Scott Watts will be panelists. Community members will have a chance to ask their question in advance and through the Q&A function in Zoom. The meeting will be streamed live on Facebook and recorded for future viewing.

April Vaccine Allocations:

- CBJ/DPH/BRH: 2340 Pfizer
- BRH Emergency Department: 100 J&J
- Urgent Care: 200 Moderna
- Costco: 200 Moderna, 100 J&J
- Family Practice Physicians: 200 Moderna
- Ron's Apothecary: 200 Moderna, 100 J&J
- Genoa Healthcare: 100 Moderna

POD Information:

6A: April 5-8, 10am to 2pm – Approximately 1900 doses. POD 6B (Second dose clinic) April 26 – 29. Registration for this clinic will open on Monday, March 22nd at noon.

7A: April 9. Closed POD for age eligible High School students. POD 7A (Second dose clinic) April 30. Registration for these clinics will be conducted through the School District. Details will be forthcoming next week through the School District.

POD 4a is underway and runs through tomorrow. The second dose clinic (4b) will be scheduled for April 5 – 11. This clinic is made possible through a cooperative effort with SEARHC. We anticipate 2100 doses will be administered.

POD 5a is scheduled for Tuesday, March 23rd. 1100 doses of Pfizer will be available. There are no appointments left for this clinic but a waitlist has been established. The second dose clinic (5b) will be held on Tuesday, April 13th.

Commercial flight loads continue to increase. Graphs are at the end of this report.

Daily Numbers Report: We are reporting 2 new cases today.

COVID-19 In Juneau				
	Active	Recovered	Deceased	Cumulative
Resident	16	1,162	5	1,183
Nonresident	2	143	0	145
Total	18	1,305	5	1,328

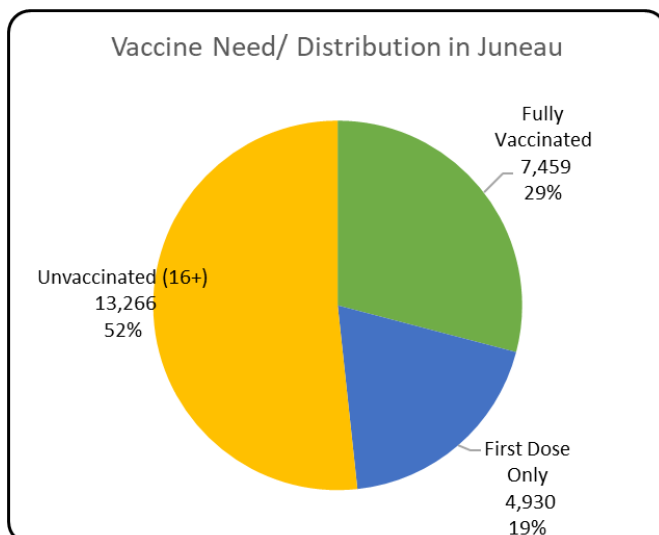

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard.

Disease Transmission/Contact Tracing:

We are reporting no new resident cases and 2 new nonresident cases today. The new cases are associated with the mining industry and were identified during the travel quarantine period.

The State is reporting 67 new cases today bringing the statewide cumulative total to 61,158 cases.

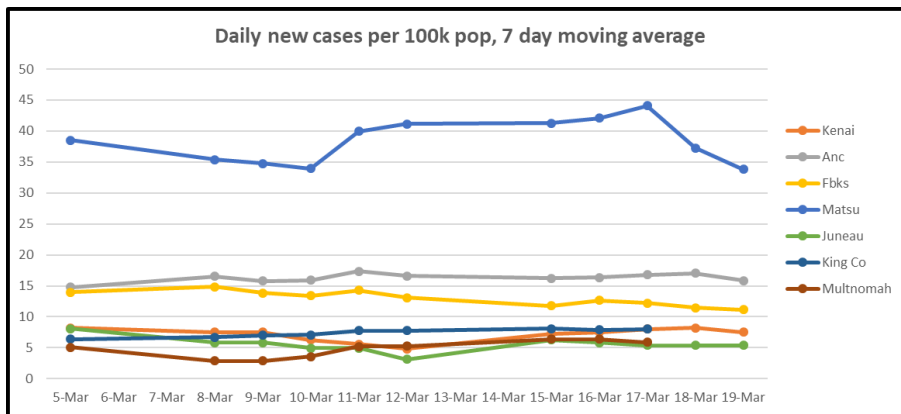

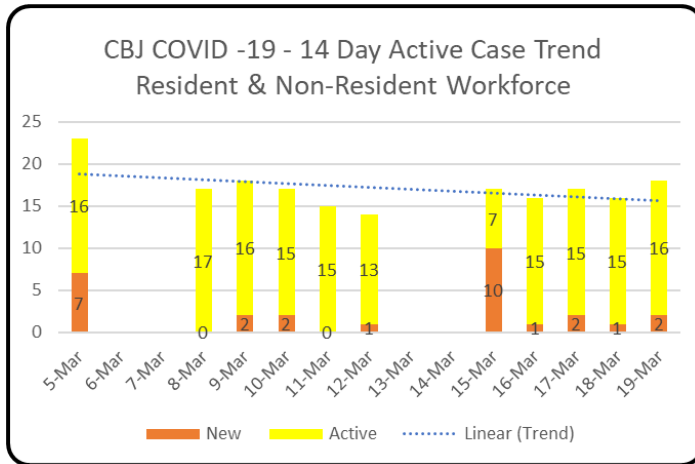

Testing: 29 tests were processed by BRH. Results were provided within 24 hours of testing.

23.3% of the total population of Juneau is fully vaccinated.

48.3% of the Juneau population age 16 and above have received at least 1 dose of vaccine and 29.1% of the age eligible population is fully vaccinated.

The State is reporting that 77.0% of the population in Juneau age 65+ is fully vaccinated.

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website

Airport Numbers:

State of Alaska Airport COVID-19 Testing		
Juneau International Airport Data Summary		
Data Collected 3.18.21		
	Week 40 3.7-3.13	12.20.20- 3.13.21
