 FROM: Mila Cosgrove, Incident Commander
 RE: **Situational Update –Level 1 Minimal-** Operational Period 32 (04/22/21 – 05/20/21)

| Overall Community Risk | Disease Situation | Hospital Capacity | Public Health Capacity |
|---------------------------|--|-----------------------------------|----------------------------|
| Level 1b - Minimal | The community continues to experience consistent positive case activity and community spread is present. Variants are present. Vaccine is available. | The hospital case load is stable. | Contact tracing is stable. |

The Complete CBJ COVID-19 Dashboard can be found [here](#) or by going to [Juneau.org/ COVID-19](http://Juneau.org/COVID-19)

Situation Assessment: Our 14 day case rate is at the moderate alert level and our 7 day case rate is at the high alert level. The community continues to see COVID spread in the community with a higher proportion of cases occurring in youth under the age of 19. Two variants of concern have been identified in Juneau - (UK/B1.1.7 and Brazil/P1). Case rates statewide are declining.

Issues of Note:

Today we passed the benchmark of 50% of the total population fully vaccinated. Fully vaccinated is defined as shot series complete plus 2 weeks. The community risk level is now at 1b.

| Community Mitigation Strategies | | | | | |
|--|--|--|---|--|--------------------------------|
| Incident Risk Level | Masks / Social Distancing | Large Gatherings | Restaurants, Bars | Personal Services, Gyms | Travel |
| Minimal: 1b - 50 - 69.9% of total population fully vaccinated - [Projected Date: May 12] | Masks/Face coverings must be worn indoors in public areas when unvaccinated individuals may be present. Vaccinated individuals must wear masks outdoors during crowded outdoor events (e.g. live performance, parade, sports event) and unvaccinated individuals must wear masks outdoors when 6 ft of social distancing cannot be maintained. | Indoor gatherings should be limited to the number of participants that will allow 6 ft of social distancing to be maintained (masks required). Outdoor gatherings are recommended. There are no limits or required safety measures if all individuals at the gathering are fully vaccinated. | Maintain 6 ft of social distancing and wear masks when not actively eating or drinking. | Masking & social distancing protocols appropriate to the level must be observed (See masking and social distancing column). 6 ft of social distancing should be maintained where possible. There are no limits or required safety measures if all individuals using the facility are fully vaccinated. | Follow State Health Advisories |

Youth ages 12 and up have been cleared for the Pfizer vaccine. There are 1600 youth in Juneau between the ages of 12 – 15. Clinics are scheduled on May 14 at the high schools and May 17 at the middle schools.

Clinics will be open to any youth 12 and up and any of their family members who wish to be vaccinated regardless of school enrollment status.

Capstone will begin providing vaccines at the Juneau International Airport on Saturday, May 15th.

We have a new cluster that is the result of a small private party. That cluster is currently at 7 confirmed positive cases.

There are a number of clinics planned for May throughout the community. Many of these clinics were originally set up as 2nd dose clinics which will now also be offering the Janssen vaccine. Clinics are being held on the following dates. Registration for the clinics is [on line](#) or be calling the hotline at 586-6000. Walk in slots are generally available.

Second dose clinics with Janssen (J&J) available:

May 12, 9 a.m. – 4 p.m. at Juneau Public Health Center, 3412 Glacier Highway

May 13 - 15, 2 – 7 p.m. at UAS Recreation Center, 12300 Mendenhall Loop Road

May 17, 2 – 7 p.m. at Resurrection Lutheran Church, 740 W 10th Street (Corner of Glacier and 10th)

New shot clinics (Pfizer and pending availability, Janssen (J&J):

Sign up for an appointment at juneau.org/vaccine or call 586-6000. Registration isn't required – the May 22 clinic will be open to drive-ups and the May 26 clinic will be open to walk-ins; choice of vaccine will be dependent on availability.

May 22, 11 a.m. – 4 p.m. at the old Household Hazardous Waste Building 5436 Commercial Blvd.

May 26, 12 – 4:30 p.m. at True North Federal Credit Union, 2777 Postal Way.

Daily Numbers Report: We are reporting 5 new cases today (Monday 1:00 pm – Wednesday 1:00 pm).

| COVID-19 In Juneau | | | | |
|--------------------|-----------|--------------|----------|--------------|
| | Active | Recovered | Deceased | Cumulative |
| Resident | 19 | 1,292 | 5 | 1,316 |
| Nonresident | 0 | 158 | 0 | 158 |
| Total | 19 | 1,450 | 5 | 1,474 |

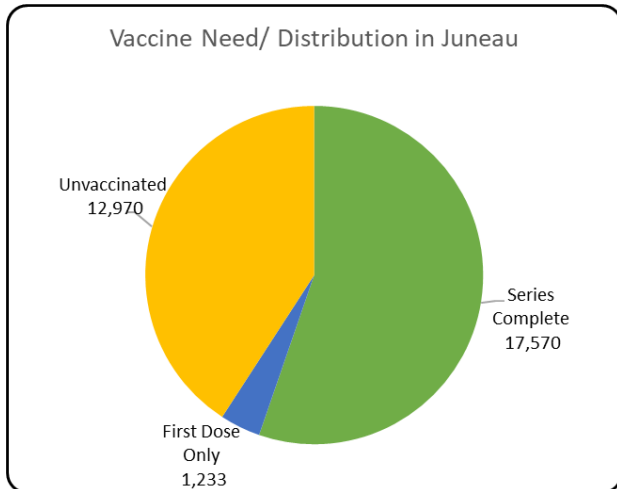

Note: CBJ EOC data may differ from the data reported on the State of Alaska dashboard.

Disease Transmission/Contact Tracing:

We are reporting 5 new resident cases and no new nonresident cases. 3 cases are secondary transmission, 1 case is travel, and the remaining case is under investigation. We have two private gathering clusters that are active. The older one is at 7 positive cases with 6 recovered. The newer cluster also has 7 positive cases with none yet recovered. 1 of the new cases is associated with the school district. JSD has contacted anyone who may have been impacted.

That State is reporting 84 new cases today bringing the statewide total to 69,267 cases. This is a total of 150 new cases since the last EOC report.

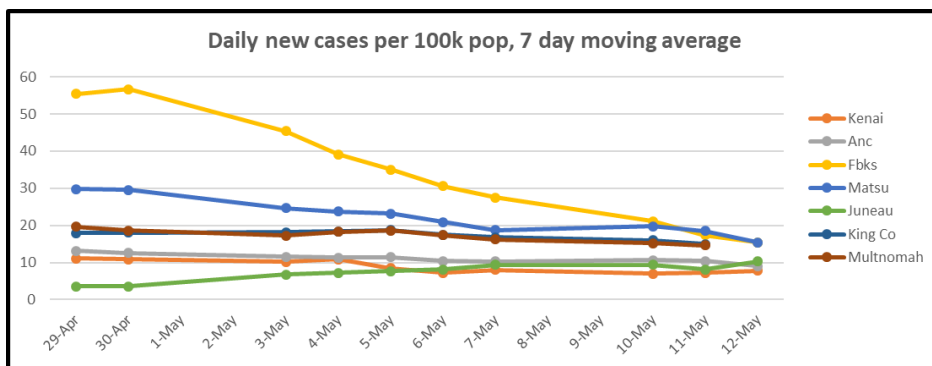

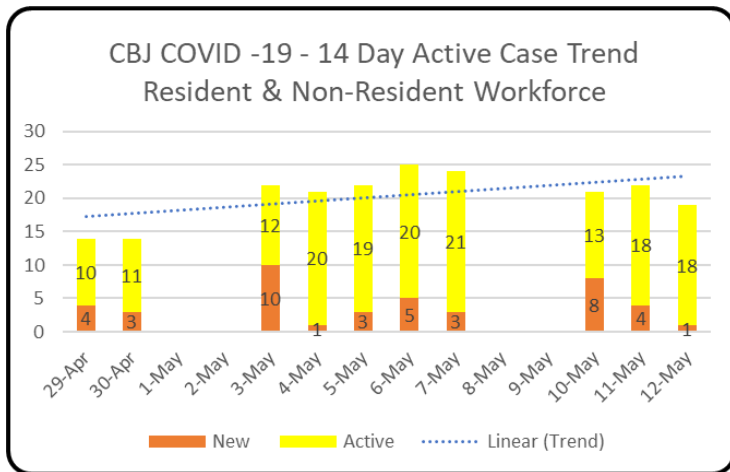

Testing: 159 COVID tests were processed at BRH since the last EOC report, all tests returned in less than 24 hours.

Total: **59.2%** of the of the total population of Juneau has received at least 1 dose of vaccine and **55.3%** have completed their vaccine series.

16+: **73.3%** of the age eligible Juneau population has received at least 1 dose of vaccine. **68.5%** have completed their vaccine series.

65+: **94.5%** of this age group has at least one dose of vaccine. **91.2%** have completed the vaccine series.

This chart tracks the number of new cases in the past 7 days, controlled for population. King County (Seattle) and Multnomah County (Portland) are included for context and due to travel frequency. The source data for Alaska is from the SOA dashboard. Out of state data is from the Harvard Global Health Institute (<https://globalepidemics.org/key-metrics-for-covid-suppression/>) and generally lags a day behind most of our other reporting. Policy recommendations at varying levels (<1, <10, <25, 25+) can be found on their website
