Assigned by Purchasing Div.

MODIFICATION (WAIVER) REQUEST

Requesting Department & Division	Contact Name	Telephone #
Department Head Signature	Date	Original RQ #
		
		\$
Is this Procurement State or Federally funded?	YES	NO

Reason for Modification Request:

Please complete this form and attach all supporting documents.

Give complete, accurate, detailed explanation of your request. Please be specific.

The Athletica Dasher System currently in Treadwell Arena has been custom designed and built in Athletica's specialized fabrication facility for our rink. The floor anchors were uniquely placed to suit their proprietary panel layout and construction. Their computerized design process allows them to fabricate the new dasher system from the design of the current system so that many of the panels from the existing dasher boards could be incorporated into the new dashers on an emergency basis.

Sole Source: The purchase of a commodity or service from the only known single source. *Attach verification.*

Code Provision: [53.50.090 \(c\)](#)

Class 2 Emergency: A circumstance that poses a threat to the health, welfare or safety of the public.

Code Provision: [53.50.090 \(L\)](#)

Rider to Another Contract: A vendor may extend another government agency's bid or contract pricing to CBJ. The proposed purchase must meet CBJ purchasing requirements and must have been competitively bid.

Code Provision: [53.50.090 \(f\)](#) **Agency:** _____ **Contract #:** _____

No Substitute: A request for a specific brand name and model number of a particular item to be purchased. The item must be available from more than one supplier.

Other: Clear explanation is required. **Code Provision:** (if applicable) _____

The Athletica Dasher System currently in your Treadwell Arena has been custom designed and built in our specialized fabrication facility for your rink. The floor anchors were uniquely placed to suit our proprietary panel layout and construction.

Our computerized and robotic design process allows us to fabricate the new dasher system from the design of the current system so that many of the panels from the existing dasher boards could be incorporated into the new dashers on an emergency basis. Our current frame construction is based on the same engineered design that utilizes our specially reinforced and mechanically fastened extruded aluminum tubes. The new layout will be designed and built to match our existing anchor system.

Plans are for us to ship the new dasher system in May for a June arrival and installation before your July 15th ice startup.

Best regards,

Reid Hart,
Director of Sales
Athletica Sport Systems Inc.
