Give complete, accurate, detailed explanation of your request. Please be specific.*

EZ Street Cold Patch is a polymer-modified cold asphalt developed to repair potholes, utility cuts, overlays and edge repairs in asphalt or concrete. EZ Street is the preferred pothole repair product for use on Juneau streets as it works in all weather conditions, including rain events. The product meets Alaska Department of Transportation standards for variable temperature and applications and is critical that CBJ matches product applications where City and State roads coincide. Lakeside Industries is the regional distributor for the product. See attached letter.
