The following items of the contract are modified as herein indicated. All other items remain the same. This addendum has been issued and is posted online. Please refer to the CBJ Engineering Public Purchase webpage at: <https://www.publicpurchase.com/gems/juneau.ak/buyer/public/home>

CLARIFICATIONS:

Question: *"The type 3 waiver is to be applied so that 60% of the components and subcomponents of the facility meets the "Buy American" act. Can you please confirm what scopes of work in this project should be considered the "facility"? on recent projects, Sand and Chem and JIA Terminal, the facility was the actual completed structure but didn't take into consideration the civil work. With his project largely civil, I can only assume the "Buy American" or "Facility" is only related to the abutments?"*

Response: The work that must comply with the FAA's Buy American requirement on the project would be the concrete abutment assemblies (including rebar), the corrugated plastic pipe (CPP), the HDPE pipe, the storm drain catch basin and area drain, the water level board and seeding.
