PROPOSITION NO. 2

GENERAL OBLIGATION BONDS, 2003
\$6,945,000

Explanation

This proposition will authorize the issuance of \$6,945,000 in general obligation bond debt for the purpose of making the following renovations, upgrades and improvements to School District facilities:

Floyd Dryden Middle School Renovation Phase II; and
Harborview Elementary School plumbing piping replacement.

Specific project funding provisions and estimated property tax impacts:

- These projects meet the requirements for 70% State of Alaska reimbursement under the State's School Construction Bond Debt Reimbursement Program.
- To obtain reimbursement from the State, the project funding must be in the form of a bond issue and issued for a minimum period of 10 years.
- The estimated total cost of the projects (including interest) is \$8,994,000. This amount assumes the Bonds are issued in the principal amount of \$6,945,000, mature over a 10-year period and bear interest at an average rate of 5% per annum.
- It is estimated the City would receive reimbursements from the State of \$6,295,800 or 70% of the total cost. This assumes the Legislature fully funds the debt reimbursement program. The State reimbursement program is subject to annual appropriation by the Legislature.
- The City (taxpayers) would pay \$2,698,200 or 30% of the total estimated cost.
- Annual taxes of \$10 per \$100,000 of assessed value would be levied to retire the debt. Again, this assumes the State fully funds the debt reimbursement program.
- Annual operation and maintenance costs should not materially change as a result of these projects.

This property tax levy example is provided for illustrative purposes only.

For the purpose of paying the cost of construction, renovations, upgrades and improvements to certain City and Borough of Juneau educational facilities. Shall the City and Borough of Juneau, Alaska, issue and sell its general obligation Bonds, maturing over a period of 10 years from their date of issue, in the aggregate principal amount of not to exceed \$6,945,000?
